QUICK SETUP GUIDE

Just TESTED, ALL WORKING
SET TO DEFAULT

Dear Panasonic Customer,
Thank you for purchasing your Panasonic Fax Telephone.
To help you enjoy the full benefits of your new FAX,
please set aside a few minutes to carefully follow the easy steps in this Quick Setup Guide.

SETUP THE FAX

CASE 1: "FAX ONLY"

If you have a line that is used only for receiving faxes, go to step 2.
To setup the FAX automatically to answer every call, SELECT "FAX ONLY" mode then press the "SET" key.

"FAX ONLY" [2]

Your fax machine will now answer all calls and receive faxes automatically.

SETUP FOR DISTINCTIVE RING SERVICE (PHONE LINE WITH 2 OR MORE PHONE NUMBERS)

CASE 2: DISTINCTIVE RING

If you have more than one telephone number on your telephone line,
please consult your telephone company to subscribe to the "Distinctive Ring" service.
To setup, select "FAX ONLY" in SETUP mode then press the "SET" key.

"DISTINCTIVE RING" [3]

Then, follow the instructions from your telephone company to register your fax number.

SETUP FOR TELEPHONE USE ONLY

CASE 3: TEL ONLY

If you use only one line for voice calls and no fax calls,
please press the "MENU" key repeatedly until "SELECT A SETUP" is then press the "SET" key.

"TEL ONLY" [4]

Ring tones must be received manually.
Please refer to the Operating Instructions for detailed information.

SETUP FOR TAD ONLY

CASE 4: TAD ONLY

If your telephone line is used solely for an answering machine,
please press the "MENU" key repeatedly until "SELECT A SETUP" is then press the "SET" key.

"TAD ONLY" [5]

Please refer to the Operating Instructions for detailed information.

Note: To use the QUICK SETUP for other features, press "MENU" key repeatedly until "SET"

TEST

RANDOM FIVE ELEMENTS WARM UP 10/14/87

سری دوم تمرین‌های طراحی الگوریتم‌ها

۱. فرض کنید یک درخت دودویی کامل با ارتفاع h و $n=2h$ گره برگ داریم. هر گره درخت نیز دارای یک مقدار می باشد. تعریف می‌کنیم:

- اگر گره x گره برگ باشد، $A(x)$ برابر است با مجموعه شامل x و تمام اجداد x تا ریشه درخت (تا ریشه درخت)
- اگر x و y دو گره برگ مجزا باشند، $A(x,y)$ برابر است با اجتماع $A(x)$ و $A(y)$ یعنی $A(x,y) = A(x) \cup A(y)$ و $F(x,y)$ را حاصل جمع عناصر $A(x,y)$ تعریف می‌کنیم

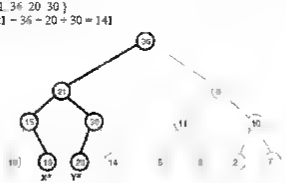
الف) الگوریتمی ارائه کنید (با استفاده از بسته کد یا توصیف فارسی) که برای یک درخت دودویی کامل، دو گره برگ x^*,y^* را پیدا کند، طوریکه مقدار $F(x^*, y^*)$ ماکزیمم گردد و سپس مقدار $F(x^*, y^*)$ را بعنوان خروجی بازگرداند.

ب) مرتبه زمانی الگوریتم ارائه شده را تعیین کنید.

<u>توجه: الگوریتم ارائه شده باید مبتنی بر روش تقسیم و حل باشد.</u>

مثال برای درخت زیر گره های X^* و Y^* مشخص شده‌اند و خروجی الگوریتم برابر ۱۴۱ است. زیرا

$A(x^*) = \{ 19, 15, 21, 36 \}$
$A(y^*) = \{ 20, 30, 21, 36 \}$
$A(x^*, y^*) = \{ 19, 15, 21, 36, 20, 30 \}$
$F(x^*, y^*) = 19 + 15 + 21 - 36 - 20 + 30 = 141$



۲. (تحلیل الگوریتم مرتب‌سازی ادغامی) الگوریتمی بنویسید که برای مرتب کردن یک آرایه n عنصری، ابتدا آن را به ۲ قسمت با طول $n/3$ عنصر تقسیم کرده، سپس هر قسمت را به همین روش مرتب کرده و سپس ۲ نیمه مرتب شده را با هم ادغام کند. با تحلیل پیچیدگی زمانی الگوریتم، مرتبه زمانی آن را مشخص کنید.

Fax Hardware Test	PASS
Fax Connected to Active Telephone Wall Jack	FAIL

An active phone line was not detected

Please check the items below then rerun this test.

Check the phone cord connection between the wall jack and the fax.

The phone cord from the wall jack should be connected to the port labeled "1-LINE" on the back of your HP device

If you are using a splitter or some other device between the fax and the wall jack, remove it and connect the fax directly to the wall jack.

Plug your phone into the wall jack and check that a dial tone is available

Check that you are using the phone cord supplied with your HP device.

Refer to your User Guide for more information on the fax test and settings

Instructions on how to rerun this test:

Step 1. Press the "Setup" button

Step 2. Choose the "Tools" menu

Step 3. Choose the "Run Fax Test" item

ALABAMA DEPARTMENT OF REVENUE
INDIVIDUAL AND CORPORATE TAX DIVISION

Individual Income Tax Payment Voucher

NOTE: This payment voucher can only be used to pay the tax liability for your Alabama individual income tax return, automatic extension, or amended tax return and cannot be used for any other kind of tax payment.

When is my tax return and payment due?

Your 2016 return and payment for the full amount of tax due must be mailed by the due date of your federal return. If you elected to file your 2016 return under the automatic extension rule then the full amount of tax due must be mailed by the due date of your federal return. If you owe and you payment is mailed after the due date of your federal return, you will owe penalties and interest for failure to timely pay. If you are filing a return other than the current tax year or an amended return, the full amount of tax due must be submitted with your return.

How do I pay this amount?

Detach the payment voucher below, fill it out, and mail it along with your payment. You may pay your tax due with check, money order, credit card, E-Check, or ACH Debit. Do not send cash through the mail. If you pay by check or money order make it payable to **Alabama Department of Revenue** and **note** your social security number on the check.

How do I pay by credit card?

You may choose to use your Discover/Novus, Visa, Master Card, or American Express card by using either of the following companies:
You can pay by calling Official Payments Corporation at **1-800-272-9829** or visit **www.officialpayments.com/**
Enter jurisdiction code **1100**.

You can also pay by visiting Value Payment Systems at **www.payalt.com**.

There is a convenience fee for the service which is paid directly to the company that you choose to use. The amount of the convenience fee is based on the amount of your payment. Do not use Form 40V when paying by credit card.

How do I pay by ACH Debit? (E-check)

You may pay by ACH Debit by going to **www.myalabamataxes.alabama.gov**. Do not use Form 40V when paying by ACH Debit. You will need to have your bank routing number and checking account number to use this service. No fee is charged for this service.

I am better than your kids.

If you work in an office with lots of people, chances are that you work with a person who hangs pictures up that their kids have drawn. The pictures are always of some stupid flower or a tree with wheels. These pictures stink. I could draw pictures much better. In fact, I can spell, do math and run faster than your kids. So being that my skills are obviously superior to those of children, I've taken the liberty to judge art work done by other kids on the internet. I'll be assigning a grade A through F for each piece.

Megan, age 4

First of all, I don't even know what this is. If it's supposed to be a dog, then it's the crappiest dog I've ever seen. F

HP Fax Products - Testing Your HP Fax Machine With the HP Fax Test Service

Introduction

This document will assist you in testing your HP Fax machine using the HP Fax Test Service.

Print this document for easy reference by clicking the Printable Version link in the upper right corner of this page.

Test your fax machine

To test the capability of your fax machine, follow the directions below.

NOTE:

Be sure that your phone number is not Caller ID blocked by your telephone company prior to attempting to send and receive a fax. Pressing *82 before dialing the toll free number will unblock the Caller ID blocking feature in most areas. Other phone company services can prevent you from receiving a fax, including voice mail, call blocking, or call privacy features.

NOTE:

Whenever troubleshooting a fax issue, it is good practice to set the Automatic Reports option to Every Error before attempting a test fax

Rating: ★★★★★ **Really the best**

Laurel
Date: March 11, 2010

"I probably looked at 10 different brands of walkers for my 96-year old mom. This was the most stable, the most comfortable and very lightweight for the ability it offers. It rolls over gravel, pebbles, cracked concrete, lawns, and dirt! You do have to put it together, but the directions are fairly simple. I think it is really the best!"

Rating: ★★★★★ **Medline Deluxe Rolling Walker w/grey seat**

Chela
Date: October 31, 2009

"Light weight with many features, such as a cup holder, sure rubber and comfortable seat. Not easy for someone with dementia that needs occupational therapy, but this applies to ALL WALKERS that have 5 wheels and brakes. When I train my husband age 88 to use it as automobile as if he was driving a car it may work out perfect. Otherwise I will hold on to it for who ever will need it. It feels nicely for travel, and can just run as strolling through the Huntington library with ease. Great construction and value."

Why is this item marked as FSA Eligible?
This item is marked as FSA eligible to identify that it may be purchased using a Flexible Spending Account (FSA). For your convenience Costco.com has marked all of the over-the-counter (OTC) products most likely to be eligible for reimbursement with this icon

FSA ELIGIBLE or FSA OK

What is a Flexible Spending Account (FSA)?
A FSA (Flexible Spending Account) allows use of the funds an individual has designated to be set aside pre-tax for medical expenses, typically with their employer when selecting healthcare programs during the previous year

What types of purchases are FSA eligible?
Over-the-counter health products are reimbursable if they are used to alleviate or treat personal injuries or sickness and are generally accepted as falling within the category of medicine or drugs

- Cough, cold, and allergy products
- Antacids
- Antifungals
- Pain relievers
- First-aid products
- Dietary supplements: Including vitamins, minerals, herbals, and botanicals, are covered when used to treat a current illness, but not when used for general health purposes
- Prescription medications

How Can I Test My Fax Machine?
Submitted by Smart Computer User on December 9, 2008 - 12:00pm.

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1 310-543-0990 (a number in Northern California.) When it's finished transmitting, point your web browser to Fax Toy http://faxtoy.net/ -- It's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to Faxzero http://faxzero.com/ this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring -- hopefully, it will automatically answer and spit out the test fax.

ROBERT MONDAVI WINERY

2004

CABERNET SAUVIGNON RESERVE

NAPA VALLEY

• WINE •

Varietal composition.
80% Cabernet Sauvignon
12% Cabernet Franc
2% Petit Verdot

Flavor descriptors.
Deep, dark color signals the wine's depth of flavor and opulent texture. Aromas of black fruit and hints of cedar, black licorice and spicy nutmeg and clove lead to dense flavors of blackberry and black plum enhanced by elegantly powerful tannins. Polished yet powerful.

Wine analysis:
Total acid: .60%
Final pH: 3.7
Residual sugar: 1.0% (dry)
Alcohol: 15% by volume

VINTAGE

A warm, dry spring followed a moderately rainy winter, giving an early start to the 2004 growing season. Unseasonably warm temperatures in March initiated early budbreak and all varietals blossomed in May at least a week ahead of the usual schedule. Total rainfall was higher than average, though runs virtually ended by March. Temperatures throughout summer were relatively mild, with Napa Valley's famous fog lingering over the vineyards until late morning. These conditions which continued through most of the harvest season, fostered high-quality grapes and set a relatively easy pace for the vineyard and winemaking teams. The grapes for this wine were harvested between September 8 and October 26.

Grape: Harvested at 23.8° Brix (average) with 0.79% initial acid and 3.7pH

• VINEYARDS •

Appellation:
Napa Valley

Grape Sourcing:
81% Oakville AVA, including 53% To Kalon Vineyard, 19% Stags Leap District

— WINEMAKING —

Hand-harvested into small bins
Hand-sorted on tables at To Kalon Fermentation Cellar
Gravity-flow movement of must and wine
Fermented in traditional oak vats and gently pressed in a traditional basket press
55 days extended skin contact (pomace cap) for softening of tannins
18 months (539 days) aging in French oak (Allier) barrels
75% new French oak barrels

SUGGESTED RETAIL PRICE AT RELEASE IS $125.00

Overview

Overview for Honeywell YB150A1009

The YB150 Fresh Air ventilation System provides fresh air to a home. The control operates a fresh air intake damper and when necessary, activates the main HVAC blower to efficiently meet ASHRAE ventilation rates.

- Designed to help meet local ventilation codes and standards, including ASHRAE 62.2-2010 standard Ventilation and Acceptable Indoor Air Quality in Low-Rise Residential Buildings.
- Microcontroller optimizes the air delivery schedule to make efficient use of normal HVAC run times.
- Easy-to-use input dials allow customized ventilation for each installation
- Test mode that includes immediate feedback to installer to confirm that air delivery requirements of selected ventilation standard are being met.
- Economical supply-only ventilation works with forced air system.
- Can be used with other equipment, such as an HRV / ERV for balanced ventilation
- **Our SKU number(s).** Honeywell YB150A1009
- **The manufacturer model number(s).** Honeywell YB150A1009

- FAX mode
  - In Ready mode, FX appears in the right hand corner of the display
  - When you get a call, the machine answers and receives the fax automatically. When reception is complete, the machine returns to Ready mode
  - If you want to change the number of rings before it answers, see **Set rings to answer** on page 27
- AUTO mode
  - In Ready mode, AU appears in the right hand corner of the display
  - When a call comes in, the machine answers it. If a fax is being sent, the device receives the fax. If the machine does not sense a fax signal, it will ring 5 times in a d fferent tone to tell you it may be a regular telephone call. If you do not pick up the handset it will try again to receive a fax after several more rings
  - If you want to change the number of rings before I answers, see **Set rings to answer** on page 27
- TAM mode

  You must have an answering machine attached to the **EXT** line socket located on the bottom of your HP Fax.
  - In Ready mode, TM appears on the right hand corner of the display
  - When a call comes in, the answering machine answers and listens if it detects fax tones, it receives the fax; otherwise, it records the caller's message.
  - If you have set your mach ne to TAM Mode and your answering mach ne or ans wer ching ..ll or the answering machine is not connected directly to your fax machine, the machine will automatically attempt to receive a fax after several rings.
  - If your answering machine allows you to set the number of rings before I answers the telephone, set the answering machine to answer an incoming call in less than 4 rings.
  - When your answering machine answers an incoming call, it records a fax tone, and I realizes a fax is coming through. Due to this, your answering machine may tell you a voice message has been left, even when it is actually a fax.

This book offers a new kind of introduction to Europe, between 1500 and 1800. Early modern is the term used by historians for the period between the end of the Middle Ages and the start of the nineteenth century. It is a time of deep crisis, born of hospitality. Europe was travelling (quite) something we recognize, called modernity. The journey was begun, but not finished.

The contributors to *Early Modern Europe* set out to explore the first of the changes in life beyond the city-dominated state. Their chapters are extensively illustrated and essentially chosen to support and complement the text. The book considers the evolving economic and social—the daily lives of the majority of European people. It shows how the religious and intellectual crisis of Western culture fragmented and diversified under the impact of new ideas. It examines politics, not just rulers, and not all of politics, but for the first time in modern attitudes and its images in operation.

Edited by Hamish Scott, Emeritus Professor of Early Modern History at the University of Newcastle upon Tyne.

Network ports are logical connections provided by the TCP or UDP protocols. The TCP protocol stack uses port numbers to determine what protocol incoming traffic should be directed to. Port characteristics are listed below.

Ports allow a single host with a single IP address to run network services. Each port number is associated with a particular service. Each host can have over 65,000 ports per IP address. Port use is regulated by the Internet Corporation for Assigning Names and Numbers (ICANN). ICANN specifies three categories for ports.

Well known ports range from 0 to 1023 and are assigned to common protocols and services.
Registered ports range from 1024 to 49151 and are assigned by ICANN to a specific service.
Dynamic (also called private or high) ports range from 49,152 to 65,535 and can be used by any service on an ad hoc basis. Ports are assigned when a session is established and released when the session ends.
The following table lists the well known ports that correspond to common Internet services.

Port(s)	Service
20 TCP	
21 TCP	File Transfer Protocol (FTP)
22 TCP and UDP	Secure Shell (SSH)
23 TCP	Telnet
25 TCP	Simple Mail Transfer Protocol (SMTP)
53 TCP and UDP	Domain Name Server (DNS)
67 UDP	
68 UDP	Dynamic Host Configuration Protocol (DHCP)
69 UDP	Trivial File Transfer Protocol (TFTP)
80 TCP	Hypertext Transfer Protocol (HTTP)
110 TCP	Post Office Protocol (POP3)
119 TCP	Network News Transport Protocol (NNTP)
123 UDP	Network Time Protocol (NTP)
137 UDP	
138 UDP	
139 TCP	NetBIOS
143 TCP and UDP	Internet Message Access Protocol (IMAP4)
161 TCP and UDP	
162 TCP and UDP	Simple Network Management Protocol (SNMP)
389 TCP and UDP	Lightweight Directory Access Protocol
443 TCP and UDP	HTTP with Secure Sockets Layer (SSL)
465 TCP	Simple Mail Transfer Protocol over TLS/SSL (SMTPS)
514 UDP	Syslog (used for remote system logging)
636 TCP and UDP	Lightweight Directory Access Protocol over TLS/SSL (LDAPS)
993 TCP	Internet Message Access Protocol over TLS/SSL (IMAPS)
995 TCP	Post Office Protocol 3 over TLS/SSL (POP3S)

Be aware of the following:

/etc/services lists all network services on the Linux system, including the port assigned to the service. Most applications reference /etc/services to determine which service is using a specific TCP/UDP port.
To protect a server, ensure that only the necessary ports are opened. For example, if the server is only being used for email, then shut down ports that correspond to FTP, DNS, and HTTP (among others).

Vehicle Buy Back Program

Program Information

Note: The Vehicle Buy Back Program is expanding on July 1 2009. It will pay $1,000 for model year 1989 and older vehicles.

To reduce air pollution, the Bay Area Air Quality Management District's (Air District) Vehicle Buy Back Program (VBB) will pay $650 for an operating and registered 1987 and older vehicle. Vehicle dismantlers contracted by the Air District will scrap the vehicles. The VBB Program is a voluntary program that takes older vehicles off the road. The VBB Program is funded through the Air District's Transportation Fund for Clean Air (TFCA). For your vehicle to be eligible for the VBB Program, it must meet the Vehicle Status Requirements and the Vehicle Functional and Equipment Eligibility Inspection described below. If you think that your vehicle qualifies, call an Air District vehicle dismantler to schedule an appointment to sell your vehicle to the Program. The dismantler will verify your vehicle's eligibility and provide you with the specific features of their state.

HP Fax Products - Testing Your HP Fax Machine with the HP Fax Test Service

Introduction

This document will assist you in testing your HP Fax machine using the HP Fax Test Service.

Print this document for easy reference by clicking the **Printable Version** link in the upper right corner of this page.

Test your fax machine

To test the capability of your fax machine follow the directions below.

NOTE.

Be sure that your phone number is not Caller ID blocked by your telephone company prior to attempting to send and receive a fax. Pressing ***82** before dialing the toll free number will unblock the Caller ID blocking feature in most areas. Other phone company services can prevent you from receiving a fax, including voice mail, call blocking, or call privacy features.

DIE TRAURIGE GESCHICHTE DER UFO-HÄUSER, DIE IN FLORIDA IM MEER VERSINKEN

Es ist schon ein unheimlicher Anblick: das alte Bombers am Cape Romano, dem südlichen Punkt der Insel Cucumber in Florida. Hier ist Mitten im Meer stehen hier mehrere kuppelartige Gebäude. Ihr Zustand ist derzeit. Was hat es mit diesen eigentümlichen Häuschen, die an Ufos erinnern, auf sich? TRAVELBOOK erzählt ihre tragische Geschichte

ART 374 FINAL EXAM QUESTIONS

1 USING A NUMBER OF SPECIFIC EXAMPLES SUGGEST THE RANGE OF EXPRESSIONS WHICH THE NINETEENTH CENTURY FOUND IN LANDSCAPE PAINTING

2 DISCUSS THE NATURE OF ARTISTIC REVOLUTIONS IN THE NINETEENTH CENTURY FOR EXAMPLE, AGAINST WHOM ARE THE REVOLUTIONS LEVELED? WHAT IS THE NATURE OF THEIR ARTISTIC STATEMENT? HOW DOES THE ART WORLD REACT TO THE REVOLUTIONS? WHAT BECAME OF THE REVOLUTIONARY STYLES?

3 IF YOU WERE ASKED TO GIVE A LECTURE ON THE ART OF THE NINETEENTH CENTURY... BUT WERE LIMITED TO SIX EXAMPLES WHICH EXAMPLES WOULD YOU USE AND WHY? FOR INSTANCE HOW WOULD YOU USE THOSE EXAMPLES TO SUGGEST THE MAJOR CHANGES WHICH TAKE PLACE IN THE NINETEENTH CENTURY?

4 DISCUSS THE USE OF THE TERMS NEOCLASSICISM AND ROMANTICISM?

5 DISCUSS REALISM IN THE NINETEENTH CENTURY.

6. IF YOU HAD TO PICK ONE ASPECT OF NINETEENTH CENTURY ART TO DEFINE THE CENTURY WHAT WOULD YOU PICK AND HOW WOULD YOU APPLY IT TO THE ART OF THE CENTURY?

7 DISCUSS THE CHANGES WHICH TAKE PLACE IN COLOR THEORY AND THE THEORY OF LINE AS AN ABSTRACT ELEMENT IN THE NINETEENTH CENTURY?

8. ONE OF THE PROBLEMS WITH THE NINETEENTH CENTURY IS THE PROBLEM OF TERMINOLOGY? (NEOCLASSICISM ROMANTICISM, ETC) WHY IS THIS A PROBLEM? IF YOU WERE TO REWRITE THE WAY WE TELL THE HISTORY OF THIS PERIOD, WHAT TERMS WOULD YOU PROPOSE THAT WE USE AND WHY?

ANSWER TWO OF THE FOLLOWING QUESTIONS MAKE SURE YOUR ANSWERS ARE CLEAR AND ANSWER THE QUESTION USE SEVERAL WELL-EXPLAINED EXAMPLES TO MAKE YOUR POINTS CLEAR

Random Stuff Sent From Your Fax Machine
Fax something interesting toll free to 1-888 877 1655 or 1-503 200-1300

To the right are pages that folks have faxed us recently. Click any thumbnail to see the large version and rate it for interestingness

You can fax something interesting to 1 888 877 1655 (your boss will never notice... maybe) or 1 503 200 1300 (long distance to Portland, Oregon) and it should appear here within a couple of minutes. (It's a toll free number if you're in the USA.) Keep it clean & legal

Fax single page documents with no cover sheet. If you fax more than one page, only the last page will appear here. We try to snip off the top few pixels of the page where your company name and fax number should appear, but make no promises that this will actually work

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it, just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero. this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

Amendment XXII

Passed by Congress March 21, 1947. Ratified February 27, 1951.

SECTION 1

No person shall be elected to the office of the President more than twice, and no person who has held the office of President, or acted as President for more than two years of a term to which some other person was elected President shall be elected to the office of President more than once. But this Article shall not apply to any person holding the office of President when this Article was proposed by Congress, and shall not prevent any person who may be holding the office of President, or acting as President, during the term within which this Article becomes operative from holding the office of President or acting as President during the remainder of such term.

SECTION 2

This article shall be inoperative unless it shall have been ratified as an amendment to the Constitution by the legislatures of three-fourths of the several States within seven years from the date of its submission to the States by the Congress.

Amendment XXIII

Passed by Congress June 16, 1960. Ratified March 29, 1961.

SECTION 1

The District constituting the seat of Government of the United States shall appoint, in such manner as Congress may direct:

A number of electors of Presidents and Vice President equal to the whole number of Senators and Representatives in Congress to which the District would be entitled if it were a State, but in no event more than the least populous State; they shall be in addition to those appointed by the States, but they shall be considered, for the purposes of the election of President and Vice President, to be electors appointed by a State; and they shall meet in the District and perform such duties as provided by the twelfth article of amendment.

SECTION 2

The Congress shall have power to enforce this article by appropriate legislation.

Amendment XXIV

Passed by Congress August 27, 1962. Ratified January 23, 1964.

SECTION 1

The right of citizens of the United States to vote in any primary or other election for President or Vice President, for electors for President or Vice President, or for Senator or Representative in Congress, shall not be denied or abridged by the United States or any State by reason of failure to pay any poll tax or other tax.

SECTION 2

The Congress shall have power to enforce this article by appropriate legislation.

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it Here s how to do both

To test the send functionality of your fax machine, send a one-page fax to 1-888-877-1655 (a toll-free number in the United States) When it s finished transmitting, point your web browser to Fax Toy **—** it's a fun web site that displays whatever is faxed to that number Within a minute, your fax should appear on the site Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax

Introduction
This document will assist you in testing your HP Fax machine using the HP Fax Test Service

Print this document for easy reference by clicking the **Printable Version** link in the upper right corner of this page

OR

Test your fax machine
To test the capability of your fax machine, follow the directions below

1. Send a one page black and white text fax to **1-888-hpfaxme** (1-888-473-2963)
2. When your fax is received by the HP Test Fax Service, we will generate a return fax to you within five minutes confirming that we received your fax. This verifies that you can both send and receive a fax with your fax machine

If you do not receive a return fax within 5-7 minutes, there may be a problem with the setup of your fax machine Consult the user manual that came with the product for proper setup and configuration

Troubleshooting Guide

In most cases, your VOIPo service will work properly without any additional action.

If you are experiencing any of the following issues, your router or modem may need additional configuration

- No audio
  Incoming calls not ringing
  Dropped calls

Nearly all issues can be resolved with these steps

1) Assign a static IP to your VOIPo adapter in your router
2) Enable port forwarding and forward the following port ranges to the new static IP. Make sure to forward the entire range of ports and not just the first and last port.

   5004 – 65000 (UDP)

1) If your router has a SIP ALG option we recommend disabling this.
2) If you are using other VOIP devices on your network, please contact our support team so we can make sure the devices will not conflict and make appropriate configuration changes.

If you need any help with these, don't know what they are, or need any other assistance, please contact our support team

We can walk you through troubleshooting and/or use a remote support tool to log into your router and likely make all necessary changes for you

Need more help?

If you need more assistance with setting up your device, please e-mail support@voipo.com and we'll be happy to help

DIABETIC SOCKS

Whether you are overweight, diabetic, suffer from poor circulation, edema or neuropathy we understand your discomfort and recommend diabetic socks for anyone with problem feet

With our sock, the toe is made wider in case of swelling; it doesn't constrict your foot and still leaves room for comfort. The 'Smooth Toe Technology' means less rubbing and irritation and there's less elastic at the top so they do not bind or create welts on the calf, but still stay up without being baggy.

ENJOY!!!

HEPATITIS B VACCINE

WHAT YOU NEED TO KNOW

Many Vaccine Information Statements are available in Spanish and other languages. See www.immunize.org/vis.

1 What is hepatitis B?

Hepatitis B is a serious disease that affects the liver. It is caused by the hepatitis B virus (HBV). HBV can cause

Acute (short-term) illness. This can lead to
- loss of appetite
- diarrhea and vomiting
- tiredness
- jaundice (yellow skin or eyes)
- pain in muscles, joints, and stomach

Acute illness is more common among adults. Children who become infected usually do not have acute illness

Chronic (long-term) infection. Some people go on to develop chronic HBV infection. This can be very serious, and often leads to
- liver damage (cirrhosis)
- liver cancer
- death

Chronic infection is more common among infants and children than among adults. People who are infected can spread HBV to others, even if they don't appear sick.

- In 2005, about 51,000 people became infected with hepatitis B
- About 1.25 million people in the United States have chronic HBV infection
- Each year about 3,000 to 5,000 people die from cirrhosis or liver cancer caused by HBV

Hepatitis B virus is spread through contact with the blood or other body fluids of an infected person. A person can become infected by:
- contact with a mother's blood and body fluids at the time of birth,
- contact with blood and body fluids through breaks in the skin such as bites, cuts, or sores,
- contact with objects that could have blood or body fluids on them such as toothbrushes or razors,
- having unprotected sex with an infected person,
- sharing needles when injecting drugs,
- being stuck with a used needle on the job

2 Hepatitis B vaccine. Why get vaccinated?

Hepatitis B vaccine can prevent hepatitis B, and the serious consequences of HBV infection, including liver cancer and cirrhosis

Routine hepatitis B vaccination of U.S. children began in 1991. Since then, the reported incidence of acute hepatitis B among children and adolescents has dropped by more than 95% – and by 75% in all age groups.

Hepatitis B vaccine is made from a part of the hepatitis B virus. It cannot cause HBV infection

Hepatitis B vaccine is usually given as a series of 3 or 4 shots. This vaccine series gives long-term protection from HBV infection, possibly lifelong.

3 Who should get hepatitis B vaccine and when?

Children and Adolescents

- All children should get their first dose of hepatitis B vaccine at birth and should have completed the vaccine series by 6-18 months of age.
- Children and adolescents through 18 years of age who did not get the vaccine when they were younger should also be vaccinated.

Adults

- All unvaccinated adults at risk for HBV infection should be vaccinated. This includes
  - sex partners of people infected with HBV,
  - men who have sex with men,
  - people who inject street drugs,
  - people with more than one sex partner,
  - people with chronic liver or kidney disease,
  - people with jobs that expose them to human blood,
  - household contacts of people infected with HBV,
  - residents and staff in institutions for the developmentally disabled,
  - kidney dialysis patients,

You now Cmd-p or click on print in the file menu (not on the print icon as that defaults to last used printer) as normal but then select the USB-Modem as the print device. You then have to check which pages to print in the Copies and Pages sub menu in the third pull down menu from the top on the print dialog box and check that the number of copies are one (you can save this as a fax preset so you don't have to check this in future). You then go back to Fax Information on the third pull down menu and fill in the number you want to fax to, finally clicking on Print

GREYWALL

ARE YOU READY FOR SOME RATINGS?

America's obsession with commercials that cost millions of dollars continued again this Super Bowl Sunday when Fox's broadcast of Super Bowl XVIII drew 111.5 million viewers to earn the title of the most-watched telecast in U.S. TV history. The game topped 2012's football championship for the honor, beating that broadcast by 200,000 viewers (at least according to Nielsen's ratings data, which is accurate to a degree of +/- 100 million viewers). After the Superb Owl, Fox aired a new episode of *New Girl*, and 25.6 million viewers stuck around to watch Prince guest-star, resulting in an 11.1 rating among 18-49-year-olds. *Brooklyn Nine-Nine* followed that with 14.8 million viewers and a 6.7 rating. Good base running is just for fast girls, right? Wrong

You do not have to possess great speed to be a good base runner. Good base running comes under the category of paying attention to details. Many games are won and lost on the base paths. Speed is nice but not a mandatory talent for effective base running. A good base runner should know her limitations and should be aggressive within those limits, but she should exercise good judgement. Base runners should know the game situation and what their run represents. They should not be satisfied with one base and should always THINK a base ahead.

A base runner should be aware while she is on base, of game-related details

- How many outs (**ALWAYS ALWAYS ALWAYS KNOW THIS**)
  - 2 outs run on contact. Just forget everything else on this page and run.
  - Less than 2 outs tag up on a fly ball and be ready to run on coaches signal
  - Ground ball in the infield to my side – wait for throw then advance.
  - Ground ball in the infield away from my side – advance on coaches signal

- Did the coach give me a sign? **PAY ATTENTION!**

- Does their catcher have a good arm and is she accurate?
  - If the catcher has a weak or in accurate arm **STEAL!** Without hesitation

- Are there runners behind me?
  - If all bases behind me are loaded I have to **run on any ground** ball

Practice your leads, sliding, rounding bases, taking the extra base, hit and runs, stealing, 2 out leads, breaking up a double play and diving back to bases. Don't underestimate the importance of good base running.

TODAY - MARCH 15th (JokesAndTrivia.com)

74th day of the year (75th in leap years) with 291 days to follow
Holidays for Today: Dumbstruck Day ~ Ides of March ~ International Day Against Police Brutality

A client recently brought her two cats in to my husband's veterinary clinic for their annual checkup. One was a small-framed round tiger-striped tabby while the other was a long, sleek black cat. She watched closely as it put each on the scale. "They weigh about the same," I told her.

"That proves it!" she exclaimed. "Black does make you look slimmer. And stripes make you look fat."

ONE-LINERS.

~ Back up my hard drive? How do I put it in reverse?

~ I'm so tired. I was up all night trying to round off infinity.

~ I just got lost in thought. It was unfamiliar territory.

~ She's always late. In fact, her ancestors arrived on the "Juneflower."

~ You have the right to remain silent. Anything you say will be misquoted and used against you.

~ I watched the Indy 500 and I was thinking that if they left earlier they wouldn't have to go so fast.

After a long day of being called upon to visit an endless series of horses and cows with sore legs, I finally returned to the animal clinic.

Although exhausted when I discovered I had a slow leak in one of my truck tires, I drove over to get it fixed at the service station.

The mechanic knew immediately he was dealing with a tired veterinarian after I carefully explained to him that my truck seemed to be lama in the right hind tira

A college drama group presented a play in which one character would stand on a trap door and announce, "I descend into hell!"

A stagehand below would then pull a rope the trapdoor would spring, and the actor would drop from view.

The play was well received. When the actor playing the part became ill, another actor who was quite overweight took his place. When the new actor announced "I descend into hell!" the stagehand pulled the rope and the actor began his plunge but became hopelessly stuck. No amount of tugging on the rope could make him descend.

One student in the balcony jumped up and yelled, "Hallelujah! Hell is full!"

TODAY IN TRIVIA. **How high can a cat jump under its own power?** Some cats can jump up to five times their own height in just one leap. So make sure fragile breakables are stored out of harm's way - opt for china cabinets with closing doors or enclosed display cases to protect heirlooms and collectibles from an acrobatic cat.

~ What does it mean to be dumbstruck? To be dumbstruck is to be so shocked or surprised that a person is unable to speak.

QUIP OF THE DAY. Warning: Dates in calendar are closer than they appear.

THAT'S (ALMOST) ALL FOLKS!

Thought for the day: I want to stay as close to the edge as I can without going over. Out on the edge you see all kinds of things you can't see from the center. - Kurt Vonnegut, Jr.

Frame/Forks Warranty Notification

By fitting/assembling and riding the frame or fork within this period, you confirm that you have read and agree to the contents of this document.

All frames and forks purchased from Tarty Bikes are supplied with a limited warranty against workmanship and materials defects in accordance with the time period either set by the manufacturer or defined by HK as s. The warranty duration is usually 6 months, but please contact us immediately if you would like further details of the warranty period and conditions.

This warranty does not cover bottom bracket threads or brake mount threads. All threads should be greased both male and female parts, before components are installed to help prevent galling. Do not force threaded components as this may cause irreversible damage.

The head tube is not covered against flaring due to an ill-fitting or improperly maintained headset. Headsets should not be fitted with grease in the cups.

The warranty does not cover any instances whereby the frame or fork has been assembled by anyone other than a professional cycle mechanic (receipts of work carried out should be provided where possible to validate any claims failure to provide such documents may reduce the chance of a successful claim) However each case is looked at individually and will be given a fair appraisal upon return.

Trials frames and forks are designed with the intent that they will support the components of the bike and that the tyres should be the only part of the bike to come into contact with the terrain and / or obstacles. As such any instance whereby a frame is damaged by the terrain and / or obstacles being navigated even if the damage is not present in the same location as new failure will reduce the chance of a successful warranty claim however each case will be treated on its own merit.

Warranty cover will be void should the product not be correctly maintained throughout its working life.

Please note that this warranty applies to the original purchaser of the item only for the first item purchased only and the warranty period begins from the date the original purchase was made. Any transport costs incurred are the responsibility of the customer.

We must remind you that trials riding is a dangerous activity and that you should wear appropriate safety equipment at all times. TartyBikes cannot be held accountable for any personal injury which may have been contributed to by the failure of a component. These items always have tell-tale signs beforehand and it is your duty to inspect your bike before each ride to ensure you are happy with its suitability and safety.

Finally thank you for choosing Tarty Bikes. If you have any further questions regarding your purchase or warranty matters, please do not hesitate to contact us via phone, mail or email.

1. Send a one page black and white text fax to **1-888-hpfaxme** (1-888-473-2963)

2. When your fax is received by the HP Test Fax Service, we will generate a return fax to you within five minutes confirming that we received your fax. This verifies that you can both send and receive a fax with your fax machine.

If you do not receive a return fax within 5-7 minutes, there may be a problem with the setup of your fax machine. Consult the user manual that came with the product for proper setup and configuration.

NOTE: The most common cause of failure is that the fax number set in the Fax Header on the machine does not match the number of the phone line connected to the fax. Also, ensure that the fax header contains the full 10-digit telephone number of the fax machine, including the area code.

Share Your Printer Over a Home Network Using Windows XP

Why is a you want to build a home network?

If you answer "Because I can" then you are a true technology enthusiast. Sadly, and until I discover a life of my own this is the category that best describes me.

But there are practical reasons to network your home. You can share a high-speed Internet connection with your kids, see your photos, ed I your Documents and listen to your favorite tunes anywhere n the house. In short, you may want to network your home for the same reasons that big businesses have networks: save money, share resources, and gain the freedom to work in any room that has a computer.

Somewhere n your top 10 reasons to set up a home network is sharing a printer. You don't have to buy a printer for every computer. Buy the best printer you can afford, install it on one of your computers and everyone else can use it. In your printer s bit messy? Install it on a computer in an out-of-the-way place, and you don't have to listen to it anymore.

Besides, having a network printer at home is just cool. It's something that big businesses d a and you can too.

Plug and Print

Just l ke b g business, you have to do a wee bit of planning. But you get off easy with a single decision. Where are you going to Instal l your printer?

I'd suggest a central location that has a computer. I installed n ne n my home office, since that's where I keep most of my computers. You might want to install it on a kitchen computer. Whatever you do don t put it in your kids' rooms. You might never get to it. And don't put it anywhere that you expect privacy, otherwise someone might scurry you at the wrong time with a 20 page list of colorful jokes.

In the cushion ng saga of my home network, I bought an inexpensive printer to use with Windows XP. Once I decide where to put my new printer, installation was a snap. I plugged my new printer a popular inkjet printer from that small garage startup, in to a computer running Windows XP, and the operating system automatically recognized it. Windows XP briefly displayed a ba loon n the taskbar that said "Found New Hardware," followed by the name of the printer. A fu l m nute didn't pass before the time I plugged the printer n to the computer and the time I was printing. I d on't have to do task s order to install the printer and you ll have the same experience—it just works.

Dividend Report

We are pleased to report that a fourth quarter 2011 cash dividend payment of 17.5 cents per share has been approved for payment. The dividend is payable on December 15 2011 to shareholders of record as December 5 2011

Through 2011 Old Republic has now paid cash dividends without interruption for 70 years. More recently, the annual cash dividend rate has been increased for 30 consecutive years

On an annualized basis, the dividend rate is reflective of long-term core operating earnings trends, the capital needs of Old Republic's insurance subsidiaries, and the Company's long-term expectations for its business. Our ability to provide a steady stream of cash dividends to our shareholders reflects our confidence in the prospects of our core business as a solid investment with good long-term earnings sustainability

Respectfully submitted on behalf of the Company and its Board of Directors,

Alfred C. Zucaro
Chairman and Chief Executive Officer

Chicago, Illinois

Represents the high and low closing price for years through 2007 and subsequent years represent the intraday high and low sales price

(a) Old Republic's common stock is traded on the New York Stock Exchange under the symbol "ORI". All per share statistics herein have been adjusted retroactively to reflect all stock dividends or splits

(b) **Total market return** has been calculated as the sum of the year to year increase or decrease in the closing price, and of the dividend yield for each year as a percentage of the closing price at the end of the preceding year. The total return shown would be higher if an interest factor were also applied in the reinvestment of cash dividends. Total mark return represents the sum of each year's dividend yield as a percentage of beginning book value per share, plus the percentage change in each year's book value per share

Ten year average market and book basis returns represent compounded annual rates.

(c) **Net operating income (loss)** is defined as net income (loss) before realized investment gains or losses, extraordinary items, and accounting changes, net income is inclusive of all such items

(d) In December 2003 and 2006 special cash dividends of $ .634 and $ .600 per share respectively were declared and paid.

SERVICE & SUPPORT

Testing Your Fax Machine

After you have connected the fax machine to your telephone line, you can now test to see if is ready to send and receive faxes

Here's how:

1. Program your full 10 digit fax number into your fax machine
2. Send a test fax to 1-855-FX-CANON (1-855-392-2666)
3. Once our service receives your fax, a test page will be sent back to the fax number programmed into your machine. This process generally takes 2 to 3 minutes.

Of course, should you need assistance setting up your fax or with any of the steps above, we are here to help. Please refer to our online Knowledge Base / FAQs, Contact Us by Phone or Send Us an Email.

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it, just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll-free number in the United States). When it's finished transmitting, point your web browser to Fax.Tc — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero: this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

Taiwan hospital transplants 5 HIV-infected organs

By ANNIE HUANG Associated Press | AP – 9 hrs ago

TAIPEI, Taiwan (AP) — One of Taiwan's best regarded hospitals mistakenly transplanted HIV-infected organs into five patients after a hospital staffer misheard the donor's test results by telephone, the hospital said.

The five are now being treated with anti AIDS drugs, an official at National Taiwan University Hospital in Taipei said Monday. The official spoke on condition of anonymity because she is not authorized to deal with the media.

The hospital said on its website over the weekend the mistake occurred because a transplant staffer believed he heard the English word "non-reactive" on the donor's standard HIV test, while the word "reactive" was actually given.

The information on the test result was given over the telephone and was not double-checked, as required by standard operating procedures, the hospital statement said.

"We deeply apologize for the mistake," the hospital said.

The Health Department will look into the mistaken transplants and decide on possible penalties for NTUH, department official Shih Chung-liang said. If negligence was found to have caused the blunder Shih said the hospital may have to suspend its transplant programs for up to a year in addition to unspecified fines.

The donor was a 37-year-old man who fell into a coma on Aug. 24 and his heart, liver, lungs and two kidneys were transplanted to five patients on the same day. The heart transplant was conducted at another hospital, while the four other transplants were conducted at NTUH according to NTUH.

The donor's mother who was not identified, told cable news stations that she felt terrible about the transplants and said not been aware of her son's ailment. She and he died after "falling from a high spot," without providing details.

Yao Ke-wu, who heads the health department of Nantou city where the donor resided, decried the NTUH transplants as "appalling negligence."

He said NTUH staffers could have avoided the mistake by asking his department about the donor's medical history in advance, and deplored that such inquiries were not mandatory in Taiwan.

Yao said the five organ receivers will very likely contract HIV, and their anti-AIDS treatment will be further complicated because they also have to take medication to modify rejection of the new organs.

The five recipients are all Taiwanese. NTUH is among about a dozen well-equipped and highly-respected Taiwanese hospitals offering organ transplants.

There are also concerns among the physicians and nurses who conducted the transplants that they too may contract HIV blood-test staffers routinely take protections against bodily doses during surgeries, but some experts also warned needle and other accidental cuts could still expose them to HIV

Lee Nan-yao a physician with the National Chengkung University Hospital, which performed the heart transplant, told the United Daily News that some physicians and nurses who conducted the transplant "were depressed, and on the verge of panic."

BUSY: BUSY/NO RESPONSE

Note

If you have problems receiving faxes reduce the ring delay setting on your external TAD

Connections

The external TAD must be plugged into the back of the machine into the jack labeled EXT. Your machine cannot work properly if you plug the TAD into a wall jack (unless you are using Distinctive Ring).

1. Plug the telephone line cord from the telephone wall jack into the back of the machine in the jack labeled LINE.
2. Plug the telephone line cord from your external TAD into the back of the machine in the jack labeled EXT. (Make sure this cord is connected to the TAD at the TAD's telephone line jack and not its handset jack.)
3. Set your external TAD to four rings or less. (The machine's Ring Delay setting does not apply.)
4. Record the outgoing message on your external TAD.
5. Set the TAD to answer calls.
6. Set the Receive Mode to `External TAD`. (See *Choose the correct Receive Mode* on page 48.)

Recording an outgoing message (OGM)

1. Record 5 seconds of silence at the beginning of your message. This allows your machine time to listen for fax tones.
2. Limit your speaking to 20 seconds.
3. End your 20-second message by giving your Fax Receive Code for people sending manual faxes. For example: "After the beep, leave a message or send a fax by pressing *51 and Start."

Note

We recommend beginning your OGM with an initial 5 second silence because the machine cannot hear fax tones over a loud voice. You may try leaving out this pause, but if your machine has trouble receiving, then you should re-record the OGM to include it.

Special line considerations

Roll over telephone lines

A roll over telephone system is a group of two or more separate telephone lines that pass incoming calls to each other if they are busy. The calls are usually passed down or "rolled over" to the next available telephone line in a preset order.

Your machine can work in a roll over system as long as it is the last number in the sequence, so the call cannot roll away. Do not put the machine on any of the other numbers, when the other lines are busy and a second fax call is received, the fax call would be transferred to a line that does not have a fax machine. **Your machine will work best on a dedicated line.**

Abstract

One of the biggest problems in Internet accessibility is how certain materials affect the signal of Wi Fi. Even though buildings are made of plaster/drywall, wood and metal, it is a big interference with common Wi Fi signals. Although if the Wi-F routers antenna is touching the metal it could be a big boost for the WI Fi signal. One of the ways that the hypothesis can be tested is to get your WI Fi router and put it around these (wood, metal, and drywall) and touching the metal to see if it really works. The testing included two laptops with two different systems (one newer and one older), an iPad and a iPod. Although the material did affect the Wi-Fi, the receiver also affected the WI Fi. The same material had the same affect on the entire computer like the aluminnnn made the WI Fi go down a bar. Before the experiment, people liked to no use anything to extend the Wi Fi. This experiment suggests that if aluminum is used, the Wi Fi signal will be extended.

CALL DIG

The greatest risk to underground natural gas pipelines is accidental damage during excavation. Minor damage such as a gouge, scrape or dent to a pipeline or its coating may cause a leak or failure.

Whether you're a homeowner or a contractor, having underground utilities marked before you dig protects you and others from injury and prevents damage to underground utility lines and pipes.

For this **free** mark-out service, contact *Dig Safely New York* (811 or 1.800.962.7962) at least two working days (not counting the day you call) but not more than **10 working days** before you plan to start your project (excluding holidays and weekends).

If an underground facility is damaged or disturbed, call us and we'll respond immediately to make the site safe.

What's that *awful* smell?

Scratch and sniff the egg on the inside of this guide to find out.

How Can I Test My Fax Machine?

How Can I Test My Fax Machine?

Submitted by Smart Computer User on December 9, 2008 - 12:00pm

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both

To test the send functionality of your fax machine send a one-page fax to 1-510-545-0990 (a number in Northern California) When it's finished transmitting, point your web browser to Fax Toy http //faxtoy net/ — it's a fun web site that displays whatever is faxed to that number Within a minute, your fax should appear on the site Click the thumbnail to see a large version

To test the receive functionality of your fax machine, point your web browser to FaxZero http //faxzero com/ this site lets you send faxes for free to anywhere in the United States and Canada Within a few minutes, your fax machine should ring —

Balsamic Boosted Red Potatoes

Tara s 25th Birthday Dinner

Travis Meyer

Ingredients.

- 2 tablespoons olive or canola oil
- 2 pounds small red potatoes, quartered
- 1 tablespoon finely chopped green onion
- 6 garlic cloves, minced
- 1 teaspoon dried thyme
- 1 teaspoon dried rosemary, crushed
- 1/8 teaspoon ground nutmeg
- 1/4 cup balsamic vinegar
- 3/4 teaspoon salt
- 1/4 teaspoon pepper

Directions.

1. In a large nonstick skillet, heat oil over medium-high heat. Add the potatoes, onion and garlic; toss to combine. Add the thyme, rosemary and nutmeg; toss well. Cook and stir for 2-3 minutes or until potatoes are hot.
2. Transfer to a 15-in. x 10-in. x 1-in. baking pan coated with nonstick cooking spray. Bake at 400 degrees F for 25-30 minutes or until potatoes are golden and almost tender. Add the vinegar, salt and pepper; toss well. Bake 5-8 minutes longer or until potatoes are tender.

Shopping List.

1. olive or canbla oil
2. 2 pounds small red potatoes, quartered
3. green onion
4. garlic clove
5. dried thyme
6. dried rosemary
7. ground nutmeg

How to earn your $600 HRA credit

Step-by-step instructions

These wellness activities are a great way to kick-start your health and earn credits for your health reimbursement arrangement (HRA) along the way. Your qualified spouse or domestic partner can take part too, for a total of $1,200 per family. Be assured that individual results or values from any wellness activities you complete will not be shared with American Red Cross.

Before you get started Sign up

- Go to **my.kp.org/americanredcross** and click the "Start your MyRedCross Wellness Program today" link.
- Sign on to the wellness program website by entering your kp.org user ID and password. (If you're not registered at kp.org yet, click the "Register now" button to get a user ID and password.)
- **Click the "Yes" box on the "Wellness Program Agreement" page to be eligible for your HRA credit.** If you check the "No" box, you will not be able to earn your HRA credit.
- Update or provide your contact information on the registration page.

Step 1 Complete your Total Health Assessment

- Sign on to the wellness program website through **my.kp.org/americanredcross**.
- Click the "Start a Total Health Assessment now" link on the "My Rewards" page.

You'll earn a $100 credit from American Red Cross for completing this online questionnaire. But that's not the only reason to do it – you must complete the assessment to earn more credits.

Step 2 Complete your biometric screenings

- Make an appointment with your doctor for the following screenings. You can schedule an appointment on kp.org or call the phone number on the back of your member ID card.

Total cholesterol or A1c	Fasting blood sugar
Blood pressure	BMI (body mass index)

Step 3 Check your results

If all of your biometric screening results meet the program goals

➔ Claim your remaining $500 HRA credit from American Red Cross!

If some or all of your biometric screening results do not meet the program goals

➔ Complete alternate wellness activities (See back.)

May 28 check in

« How Do I Send a Fax Without a Fax Machine
How Can I Receive Faxes Online for Free? »

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1 888 877 1655 (a toll free number in the United States.) When it's finished transmitting, point your web browser to [illegible] It's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to [illegible] this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully. It will automatically answer and spit out the test fax.

EAS policies are just the first tier of enterprise mobile management. Because EAS is built into Exchange and supported by System Center 2012, most companies can use EAS to manage mobile users without buying additional tools. It's the broadest layer of mobile management available.

But the various mobile OSes offer additional capabilities beyond what EAS provides that third-party MDM servers can tap into. Apple, for example, has several dozen such APIs that use remotely installed configuration profiles (not only to configure various iOS settings (such as preconfiguring VPN or allowed access points) but also to manage app behavior (such as disallowing the forwarding of corporate messages via personal accounts in Mail). iOS 5 adds several new policies, including the ability to prevent app removal, lock a user to a specific app (such as for kiosk or retail usage), and prevent paid apps from being purchased – all are part of what iOS calls a supervised environment, in which the iPhone or iPad is treated as an appliance.

Along the same lines, in Windows Phone 8, Microsoft supports the ability to revoke applications, restrict email forwarding, remotely enroll or unenroll devices, and remotely update business-provisioned apps. One capability in Windows Phone 8 not available to other mobile OSes is its integration with Active Directory. Notes Ahmed Datoo, vice president of marketing at MDM vendor Zenprise, "What that means is that MDM tools such as Zenprise's can access the Active Directory groups, then assign policies to those groups rather than maintain a separate set of groups in the MDM tool from the set in Active Directory. That's a time-saver for IT," he notes. It reduces the risk of employees not being in the correct groups for the policies that should apply or failing through the cracks when terminated in say, Active Directory but not in the MDM tool's user database.

Microsoft and Google provide far fewer such capabilities in their APIs, though Samsung and Motorola Mobility have added their own security APIs to their Android 4 devices. Microsoft uses a central manager in Windows Phone 8 called DM Client that contains all the relevant user and corporate profiles (like the Windows Registry, in effect), rather than rely on a set of separate installed configuration profiles (like the OS X System Folder, in effect). Table 2 shows a selection of commonly desired capabilities.

Table 2: Other native management capabilities compared

CODE SEARCH SETTING

This function allows you to search for the correct code for your brand of component. The remote control will search through its code library until it finds the one that works with your device.

1. Turn on the component you want to control.
2. Switch the mode selector to the component you want to control (TV/VCR, DVD, CBL/SAT, or AUX).
3. Press and hold the SETUP button until the mode selector LED flashes twice, then release the SETUP button.
4. Point the remote control at the component you want to control and press the CH+ button repeatedly until the component turns off.
5. When the component turns off, press the ENTER button to store the code. The mode selector LED will flash twice.
6. Test the remote control to see if it operates your component correctly. If it does not, repeat steps 1 through 5 until you find the correct code.

DIRECT CODE SETTING

You will need the list of codes for the component you want to control. Refer to your component's manual.

1. Switch the mode selector to the component you want to control (TV/VCR, DVD, CBL/SAT, or AUX).
2. Press and hold the SETUP button until the mode selector LED flashes twice, then release the SETUP button.
3. Enter the 3-digit code for your component using the number buttons. The mode selector LED will flash twice.
4. Point the remote control at the component you want to control and press the POWER button. If the component turns off, the code is correct. If the component does not turn off, repeat steps 2 through 4 using another 3-digit code.
5. Once you have found the correct code, press the ENTER button to store the code. The mode selector LED will flash twice.

VOLUME SETTING

You will need the list of codes for the component you want to control. Refer to your component's manual.

1. Switch the mode selector to the component you want to control (TV/VCR, DVD, CBL/SAT, or AUX).
2. Press and hold the SETUP button until the mode selector LED flashes twice, then release the SETUP button.
3. Enter the 3-digit code for your component using the number buttons. The mode selector LED will flash twice.
4. Point the remote control at the component you want to control and press the POWER button. If the component turns off, the code is correct. If the component does not turn off, repeat steps 2 through 4 using another 3-digit code.
5. Once you have found the correct code, press the ENTER button to store the code. The mode selector LED will flash twice.

When I visited the LA River School, I was uplifted by seeing so many students and busy professionals come together to practice resume writing skills.

This work helps makes classroom relevant and we need more of these community to school connections to educate our students for a rapidly changing world. It makes me proud to be on the Board of LAEP, an organization with decades of experience in that vital work and a thoughtful, patient approach to genuine education innovation.

The *Journal of Cognitive Liberties* seeks to define and vitalize the public debate over human autonomy and mental emancipation. Our International publication focuses on new and old drugs, techniques, and technologies that have the potential to enhance, augment, or restrict freedom of thought. Articles address the intersection of technology with cultural control mechanisms such as Drug Prohibition, Legislative Regulation, Media Policy, Ethics, Civil and Human Rights. The editors welcome submissions in related areas of inquiry.

technologies and psychopharmacology.

Articles should be timely and have the potential to be enjoyed by individuals in multiple disciplines. Academic papers, monographs, essays, book reviews and translations are all acceptable.

Deadlines & Data

The *Journal of Cognitive Liberties* is published three times per year by the Center for Cognitive Liberty & Ethics (CCLE) in Davis, California. Deadlines for submissions are: October 1 (Spring), February 1 (Fall), July 1 (Winter). Submissions are reviewed on an on-going basis.

Please see the Journal's Web site for specifications on sending us your submission.

Down

Teaching your dog to lie down will help you prevent some unwanted behaviors. If your dog is in a down position he cannot jump on you or your guests. It also helps your dog to relax when he is overly excited. You'll use the same luring method you used when teaching Sit.

- Start with your dog in the Sit position
- Hold a treat between your thumb and forefinger with your palm facing the floor
- Keep the treat close to your dog's nose
- Slowly lower your hand to the floor - your dog's head should follow your hand
- Move your hand around the outside of your dog's body toward his rear end - this will cause his head to follow your hand around resulting in his body sliding into a down position
- Mark/click when your dog is completely in the down position
- Reward the behavior then give the release word

Down can be difficult for some dogs. You may need to break this down into smaller steps. If your dog doesn't lie down you can do what we call shaping the behavior. This means mastering one portion of the behavior at a time.

- Follow steps one through four
- Mark the behavior when your dog lowers his head
- Once he's consistently lowering his head stop marking/rewarding that behavior
- Now lure his head around the side of his body and mark/reward that behavior

Continue along these lines until your dog is completely in a down position.
You may have to break the steps down even smaller. Remember to be patient and your dog will soon master this position.

Gym Reimbursement

The only thing better than staying in shape is getting reimbursed for it.

Healthier members are happier members.

Starting or staying with an exercise routine isn't always easy. To help you stay motivated and achieve your fitness goals, we extend the reimbursement terms of fitness centers and health clubs. You can get reimbursed — up to, on average of two-to-three times per month. We know that staying active can cross common health challenges, and this can help you stay motivated and healthy.

Note: This reimbursement does not apply to all Oxford plan members, including members in Connecticut, plan and some New York and New Jersey plans. Please refer to your Certificate of Coverage, Summary Plan Description or other governing benefit document to confirm that applies to your plan for terms, details, etc.

It's easy. First, select a gym

To receive reimbursement, you must participate in a gym or health/fitness club that promotes positive wellness. Memberships in gyms or other wellness facilities are also eligible. Find a gym, or the amenities eligible at your member or view two pieces of equipment or activities that promote cardiovascular wellness from the following list:

- Weight training machine
- Group exercise
- Pool
- Walking machine
- Squash/tennis/racquetball courts
- Stationary bicycles
- Lap, medicine ball or treadmill
- Weightlifting, rowing, boxing

How much can you get reimbursed?

Please check your benefits documents or check on-line to see how much assistance to determine how much you, your spouse or domestic partner) may be reimbursed.

The reimbursement period begins on the date of your initial visit to the gym and ends six months from that date. Subsequent reimbursement periods begin one day after your previous reimbursement period ended.[1]

You should follow the steps below to receive reimbursement for your fitness participation.

1. **Visit the gym.** You must attend a minimum of 50 visits per six-month period. Reimbursements will not be issued until six months have passed, even if 50 visits are completed sooner than six months.
2. **Collect paperwork.** You need to collect three things: a copy of your current gym bill, showing the monthly cost of your membership; proof of payment for each of the six months you are submitting for reimbursement (i.e. credit card statement, payroll deduction, automatic bank withdrawal, etc.); and a copy of this brochure. Any outlined in the next step, below.
3. **Complete the form.** Fill out and submit a Gym Reimbursement Form, which is shown on the reverse side of this page. Remember to provide the dates of your gym visits (receipt and within the past 1 week period for which you are seeking reimbursement). Also, a representative from your gym must sign this form. You or your gym can also submit your benefits administrator's form that you need to obtain from them by calling Customer Service at the telephone number on your health plan ID card.
4. **Mail everything.** The Gym Reimbursement Form, along with a copy of your current gym bill, proof of payment and a copy of the gym's brochure, should be submitted within the months' (180 days), to the following address:

   Oxford Gym Reimbursement
   P.O. Box 29130
   Hot Springs AR 71903
   Call the telephone number on your health plan ID card.

Important: Please complete the form in its entirety, or the processing of your claim may be delayed or denied. Please remember one form per member, for each three month period for which you are making a claim.

Remove CONDUIT from FireFox browser.

Chosen solution

- Open your Firefox browser and type "**about config**" in address bar
- Now you can see a list of items "Preference Name" and its values. Now type "**search**" in the filter box on top of that window
- Check all strings contents as "**CONDUIT**"...and rightclick-reset.

Thats all done. I done the same

Allergies:
VDR: Aminoquinolines

OBJECTIVE:
Physical Exam:
Respirations:
Lungs clear to auscultation with no rales, crackles, or wheezing appreciated. Chest palpation reveals no abnormal tactile fremitus. Percussion of chest reveals no abnormalities. Respirations are even and without use of accessory muscles and no intercostal retractions noted. Breathing is not labored, diaphragmatic or abdominal.
Cardiovascular:
Normal S1 and S2 without murmurs, gallop, rubs or clicks. The apical impulse on heart palpation is located in the left fifth intercostal space in the mid clavicular line. No thrill noted. Carotid pulses are palpated bilaterally and are symmetric. No bruits are auscultated over the carotid and vertebral arteries. Abdominal aorta is not palpated with out bruits. Femoral arteries are palpable bilaterally without bruits. Radial pulses are palpable bilaterally. No extremities edema observed.

the ominous waves, instantly overturning. In that moment, I knew exactly what to do. I took charge and screamed "Forward!" We all (my crew!) plunged our paddles into the rapids, swam rig (diving? hurtling?) towards the endangered raft and its C swimming? Former? occupants. As the adrenaline pumped through my veins, I couldn't help but smile, proud to be leading our team and having my teammates' backs. This time I grabbed Kevin's life jacket, pulling him to safety into an eddy.

College is a new and scary river we (I?) have never paddled before have yet to paddle. I will have hundreds of new acquaintances to build a community and thrive with meet? whom I've never met, we will have to work together to thrive. A huge piece of my transition to adulthood lies within my comfort in unfamiliar situations, a skill that will serve me well in my future endeavors whether that be college or my next river trip.

Dotting Mt
walk on the Salmon has transformed my outlook.

I emerged from the trip with a newfound confidence in myself.

Sorry lyrics

Oh I had a lot to my wa thing my time w
I trusted yo and things were ll e same
Cause everything made never comes out right
And when I see you cry it makes me want to die
I'm sorry I'm bad I'm sorry I'm blue, I'm sorry about all things I said to you
And I know I can't take it back
I love how you kiss, I love a I you're sounds, and baby the way you make my world go round
And I just wanted to say I'm sorry
This time I think I'm a blame it's harder to get through the days
You get older and blame turns to shame
[Pre-Chorus]
[Chorus]
Every single day I think about how we came all the a way
The sleepless nights and the tears you cried it's never too late to make it right
Oh yeah sorry!

Ingredients

- 1 1/2 cups all-purpose flour
- 1 1/2 teaspoons baking powder
- 1/4 teaspoon fine salt
- 2 large eggs, room temperature
- 2/3 cup sugar
- 3/4 cup unsalted butter, melted
- 2 teaspoons pure vanilla extract
- 1/2 cup milk

Meringue Frosting

- 4 large egg whites
- 2/3 cup sugar
- 1 teaspoon lemon juice
- 1 teaspoon finely grated lemon zest
- Pinch cream of tartar
- Pinch fine salt

Directions:

1 to 2 drops pastel food coloring

Equipment: Standard 12 (1/2 cup) muffin tin

Preheat the oven to 350 degrees F. Line the muffin tin with cupcake liners.

Whisk the flour, baking powder, and salt together in a medium bowl.

In another medium bowl, beat the eggs and sugar with an electric mixer until light and foamy, about 2 minutes. While beating, gradually pour in the butter and then the vanilla.

While mixing slowly, add half the dry ingredients, then add all the milk, and follow with the rest of the dry ingredients. Take care not to over mix the batter. Divide the batter evenly into the prepared tin (about 1/3 cup batter per cup cake.)

Bake until a tester inserted in the center of the cakes comes out clean, 20 to 25 minutes. Cool cupcakes on a rack in the tin for 10 minutes, then remove. Cool on the rack completely.

For Meringue: Bring a few inches of water to a boil in a saucepan that can hold a mixer's bowl above the water. Whisk the egg whites, sugar, lemon juice and zest, cream of tartar and salt in the bowl by hand. Set the bowl above the boiling water and continue whisking until the mixture is hot to the touch and the sugar dissolves, about 1 to 2 minutes. Transfer the mixture to a standing mixer fitted with the whisk attachment and beat at medium-high speed until meringue is cool and holds a soft peak, about 6 minutes. Add a few drops of desired food coloring and continue beating until it holds stiff peaks.

To decorate: Using a spoon, offset spatula or piping bag, dollop, spread or pipe meringue on top of each cupcake. Use the back of a spoon to create peaks and valleys in the cupcake as desired.

LABORATORY SAFETY

Rules and Regulations

Living microorganisms have the potential to produce human disease. Therefore, the safety of each student in the laboratory depends on whether you observe the following rules:

1. Hands are to be washed at once all the front aisles before anything any laboratory exercises and before leaving the laboratory
2. Students must wipe off the laboratory bench top at the beginning and at the end of each laboratory period using disinfectant and paper towels. These paper towels are disposed of in the regular trash
3. It is mandatory that a lab coat, lab apron, or old shirt be worn as a protective covering during each laboratory period. This covering must have either buttons or a zipper (i.e., not one that can be removed over your head). Be labeled with your name, and be kept completely buttoned or zipped for the duration of the lab period. If you are not wearing a lab coat/apron in the laboratory you will be asked to leave the room and will not be allowed to return until you are wearing one. It is best to leave your lab coat/apron in the laboratory in one of the storage cabinets provided. **DO NOT leave your lab coat in the supply cabinet (see #12 below)**
4. In order to prevent you hair from accidentally catching on fire, hair that is shoulder length or longer must be pinned or tied back so that none falls from the shoulders. In addition, hats with brims may not be worn in laboratory unless they are worn with the brim facing backwards.
5. Shoes that completely cover you feet must be worn during each laboratory period. **NO SANDALS BALLET-LIKE SHOES, OPEN-TOED SHOES, CLOGS, CROCKS®, OR BARE FEET** are permitted
6. Sitting on the laboratory bench is not permitted
7. The application of any cosmetics, including lotion, is not permitted. The insertion of contact lenses is not permitted
8. Smoking and eating is not permitted in the laboratory. This includes chewing gum or tobacco as well as drinking coffee, soda or water
9. Do not place ANY objects (pencils, pens, gum, fingers, lozenges, etc.) in your mouth while in the laboratory
10. Although not dangerous, soaps, deodorants, and laboratory reagents can react with metals in jewelry and cause discoloration to the jewelry. If you are concerned that this might happen to your jewelry, please remove these pieces of jewelry before coming to lab
11. NO bicycles or roller blades are allowed in either the laboratory or hallway. Bicycles are to be parked outside of the building
12. Do not interrupt another laboratory class to chat with friends
13. At the beginning of the quarter, each student is assigned a supply cabinet containing one of each of the following items: inoculating loop, inoculating needle, box of sterile hook of fabulous papers, clothes pin, lens cleaner, book of matches, wax pencil, permanent marker, blue pipet aid, and green pipet aid (power clips may also be supplied in some rooms). It is each student's responsibility to maintain the supplies in his/her own cabinet (see Location of Extra Materials)
14. Even if they arrive early, students are not allowed to begin work on any exercise until the instructor indicates that it is appropriate to do so. This generally includes waiting until after the instructor's presentation on the day's activities
15. Never remove equipment, media, or microbial cultures from the laboratory
16. Keep the laboratory as neat as possible at all times. At the end of each laboratory period check and arrange all materials neatly. RETURN all materials to their proper places when your work is finished
17. Label all materials properly so they can be identified easily. For example, all tubes are labeled using white label tape and a marker. DO NOT label tubes on either the cap or the body of the tube. Petri plates are labeled on the bottom with your name, the organism, type of medium, incubation temperature, and date

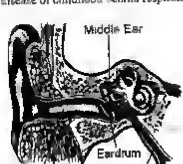
Otitis Media, Child

A middle ear infection affects the space behind the eardrum. This condition is known as "otitis media" and it often occurs as a complication of the common cold. It is the second most common disease of childhood behind respiratory illnesses.



HOME CARE INSTRUCTIONS
- Take all medications as directed even though your child may feel better after the first few days.
- Only take over the-counter or prescription medicines for pain, discomfort or fever as directed by your caregiver.
- Follow up with your caregiver as directed.

SEEK IMMEDIATE MEDICAL CARE IF:
- Your child's problems (*symptoms*) do not improve within 2 to 3 days.
- Your child has an oral temperature above 102° F (38.9° C), not controlled by medicine.
- Your baby is older than 3 months with a rectal temperature of 102° F (38.9° C) or higher.
- **Your baby is 3 months old or younger with a rectal temperature of 100.4° F (38° C) or higher.**

- You notice unusual fussiness, drowsiness or confusion.
- Your child has a headache, neck pain or a stiff neck.
- Your child has excessive diarrhea or vomiting.
- Your child has seizures (*convulsions*).
- There is an inability to control pain using the medication as directed.

MAKE SURE YOU:
- Understand these instructions.
- Will watch your condition.
- Will get help right away if you are not doing well or get worse.

Gravy Ladle

John invited his mother over for dinner. During the meal his mother couldn't help noticing how beautiful John's roommate was. She had long been suspicious of a relationship between John and his roommate and this only made her more curious. Over the course of the evening, while watching the two interact, she started to wonder if there was more between John and the roommate than met the eye. Reading his mom's thoughts, John volunteered, "I know what you must be thinking, but I assure you, Julie and I are just roommates."

About a week later, Julie came to John and said, "Ever since your mother came to dinner, I've been unable to find the beautiful gravy ladle. You don't suppose she took it, do you?" John said, "Well, I doubt it, but I'll write her a letter just to be sure."

So, he sat down and wrote, "Dear Mother, I'm not saying you did take a gravy ladle from my house, and I'm not saying you did not take a gravy ladle. But, the fact remains that one has been missing ever since you were here for dinner."

Several days later, John received a letter from his mother which read, "Dear Son, I'm not saying that you do sleep with Julie, and I'm not saying that you do not sleep with Julie. But, the fact remains that if she was sleeping in her own bed, she would have found the gravy ladle by now. Love, Mom. Lesson of the day: Don't lie to your mother.

How to test sending and receiving of a fax machine

Filed in Geek Stuff on Nov 02, 2009

Presumably you want to do one of two things: sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send fax, hopefully all your fax machine need is some paper and a phone line. Then, on a computer with an internet connection, point your web browser to Fax.Plus — it is a free web site that displays whatever is faxed to that number within a minute or so of the fax being received. Test the site out by sending a fax to your self.

To test the receive function of your fax machine, you'll want a web based service such as FaxZero. Just like the previous service, FaxZero lets you send a fax for free to anywhere in the United States and Canada. Point it at a few numbers, your fax machine included, and — hopefully — it will automatically answer and print out the test fax.

GotFreeFax.com is also allowing users to send Fax.Plus online to the US and Canada. They can either upload a PDF/Word file or just type it in. The service does NOT add Ad-Text to the fax and is suitable for having formal documents

MONASTIC SPIRITUALTIY: LEAVING ALL TO FIND ALL

A MONASTIC REFLECTION ON SAINT JOHN OF THE CROSS

Fr Steven Scherrer
January 12, 2007

The monastic life is a life of prayer and fasting, of work and love, of reading and obedience, of humility and silence in the solitude of the desert far removed from the world and its distractions, noise and temptations, to answer to a call from God to live for him *alone* with all the love of our heart. One may live this way in solitude or in a silent community of solitaries. We live thus way in order to purify the five senses and the three faculties of the spirit (the intellect, the memory (including the imagination), and the will) from the pleasures of the world, to the degree that this is possible in this life, to become freed of the passions, so that we may arrive at a *new*, profound, experienced, peaceful state of union with God. It normally takes years of ascetical living to become sufficiently purified to arrive at this *new* stable state of peace and light in which we reflect the glory and love of God upon the whole world, thus raising the general spiritual level of all, loving our neighbor as ourselves (Mk 12 31).

On the way to this *new* state of peace and light – and while in it—we may begin at some point to experience what St. Teresa of Avila calls the "prayer of union," a profound experience of light and love of short duration, in which the senses and faculties are suspended. It is a state which resembles sleep but is not sleep and during it we experience in the darkness and *unknowing* of our intellect the dazzling light of God, which fills our being, illuminating us from within with divinity, saturating us with the love of God.

When we come to our normal senses again, we are convinced that we were one with God, but do not know what happened to us or how it came about. We do know though, that it was *not our own insights or meditations* that put us into that state of union, because we were not meditating on anything when we went into it, but rather that it was caused by a revelation and visitation of God which came over us and submerged us in divine light and love. This is wordless, thoughtless, imageless prayer—apophatic prayer as we sometimes call it—although we may use an ejaculation, such as the Jesus prayer, constantly repeated, to prepare ourselves to enter into this prayer of union, for the ejaculation reduces distractions and focuses us on God.

NEW JERSEY **abecadło**

Reklamy przyjmujemy pod numerem tel (973) 777-4448 e-mail abecadlo@cs.com Fax (973) 777-4406

Cena reklamy zależy od jej powierzchni (tj. liczby jednostek) i od długości zamówienia (tzn. ile razy reklama ma się ukazać).

Jednostka = szerokość kolumny (2,5 cala) x wysokość 1 cal

Ceny za jednostkę reklamy:

1 tydzień	**$13**
2 tygodnie	**$11**
4 tygodnie	**$ 9**

Standardowa reklama trwa 4 tygodnie.
Reklama musi mieć co najmniej 2 jednostki, więc koszt najmniejszej reklamy na 4 tygodnie wynosi:

$9 x 2 jednostki x 4 razy = $72

Na reklamy dłuższe niż 4 tygodnie udzielamy zniżki:

13 tygodni (3 miesiące)	5%
26 tygodni (pół roku)	10%
52 tygodnie (rok)	15%

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it, just to make sure it works. How can I do that?

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both

To test the send functionality of your fax machine, send a one-page fax to 1-855-330 1238 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy -- it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero, this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

At present a request [illegible] card[illegible] on a densitometric computations run yields density cards corresponding to den[illegible]s or densities. If the test code used involves E N D conversions [illegible] output cards [illegible] with a separate conversion program to correspon[illegible] L corresponding to individual strips are punched wh[illegible] desired

I propo[illegible] ty card output is requested plotted densities are p[illegible] In th[illegible] simply be the average densities If the test code calls for L N D conversion it would be the E N D densities that are punched out. If the test breaks down e g because of range check failure, we would get cards punched out for individual strips since individuals are plotted in that case

I would appreciate your comments on this proposal by January 2 1971

Roy Maughan Jr., Esq

RE: Reduced Rates on Cash Advances to Plaintiffs

Dear Mr. Maughan,

Litigation funding can be either a lifesaver for a financially distressed client, or a roadblock to fair settlement of the case. At FairWorth Legal Finance, we think the attorney should decide that. We don't approve funding unless the attorney thinks it's the right strategy

Responsible Funding Practices
We're conservative about the size of our advances so they won't pose a burden for your client—or for you—when you try to settle the case. We understand how clients think at settlement time.

Saving Your Clients Money
Our rates are among the lowest in the industry. We don't have the high overhead costs of those big operations that advertise on TV. We keep it lean and pass the savings on to your client.

We Reduce our Fees on Problem Cases
Sometimes cases don't settle as well as expected. When that happens, you'll be glad to have us on your side. We won't hesitate to reduce our fees, so you can get the case resolved and behind you.

Quick and Easy Application
Your time is valuable. We take only a few minutes of attorney time, and it gets shorter still as we get to know you. Our goal is for clients to have their cash within 24 to 48 hours of first contact.

Service to the Attorney Driven our Firm
Our philosophy is that the attorney knows what is best for the case and for the client. We respect your time by keeping things simple, and we protect your client relationship by taking full responsibility for declining an application. For these reasons, 90% of our advances are repeat business from the same law offices

We're proud to be the first choice of more and more firms every year, and we'd appreciate a chance to show you why. Next time a client tells you that they plan to take an advance, have them call us at **310-858-3855** and ask for a **no-obligation quote** to compare. You'll like the way we do business. Thanks to you and Sherry for your time and attention.

Best regards,
The FairWorth Team

Our policy is to obtain express permission from your office for each fax advertisement that is sent to you. You may request at any time that we not fax you any future advertisements by: (1) an email to opt-out@fairworthlegal.com, or (2) a toll-free call to 877-259-6437, or (3) a fax to 310-277-4781. Your request must specify the fax numbers to be removed and we ask that you please leave the lawyer's name, too. Failure by us to comply with your requests within 30 days is unlawful.

UNCLASSIFIED
~~CONFIDENTIAL~~

STATUS OF PROJECT GRUDGE

I. GENERAL STATUS

A. Files

The majority of the time devoted to Project Grudge during the period covered in this Status Report, 30 November 1951 to 31 December 1951, has been spent in sorting and filing old Project Grudge and Project Sign files. All of the incidents dating back to 1946 that are in ATIC have been sorted and filed. There are approximately 800 on file. Each incident has been put in a separate folder and filed in chronological order.

Summary cards are being made on each incident. These summary cards will include data such as description of the object, course, altitude, speed, maneuvers, etc. These cards will then be coded-indexed in an attempt to obtain characteristics or trends in the sightings. It is contemplated that this correlation will be completed by the middle of February.

B. Missing Reports and Photographs

It is apparent that the details of some of the reports between early 1949 and mid-1951 are missing. An attempt will be made to obtain these reports from other agencies so that the ATIC file will be complete. Photographs referred to in some reports are also missing. Although there have been very many photographs of allegedly unusual aerial objects submitted to ATIC, there have been a few and an attempt will be made to obtain prints of these photographs.

C. Map for Plotting Sightings

A large map of the United States is being prepared and is nearly completed. All of the sightings will be plotted on this map in an attempt to establish some pattern in the sightings. A color code will be worked out so that as much information as possible can be graphically illustrated on the map.

D. Delays in Obtaining Information

It will be noted in the list of incidents that is contained in this report that the investigations of sightings reported several months ago are still pending or that some sightings have not been investigated due to the time that has elapsed since the sighting. The investigations being conducted in conjunction with the project are still being hampered by the delays in receiving information.

On 25 October 1951, it was requested that AFOIN-OO-1 letter dated 8 September 1950 subject: "Reporting of Information on Unconventional Aircraft" be revised and recirculated to all AF commands. It is hoped that as soon as this is done the situation will improve.

WinFax PRO 10.0 Symantec Corporation
Release Notes February 2000

The following information reflects changes made since the WinFax PRO User's Guide was printed. We recommend you review this document before you install and use WinFax.

INSTALLATION NOTES

This section describes known issues that you may encounter when installing WinFax.

Installing WinFax with NAV 5.0 Auto-Protect enabled

The "scan all files" option enabled in NAV 5.0's Auto-Protect feature may hinder the complete installation of WinFax. To ensure a complete install, simply change the option to scan "Program files" only

Scripted Install and DCOM/COMCTL32

Before running a scripted installation (automated multiple install) of WinFax, you must install or update DCOM (Windows 95) and COMCTL32. The related executable files (DCOM95.EXE and 40COMUPD.EXE) are located in the ADMIN directory on your WinFax installation CD

Installing the RightFax communications device

If you want to be able to use the RightFax Client server feature in WinFax, you must install WinFax using the Custom Install option. During installation, select Custom Install and ensure that RightFax is selected as an available Communications Device

WinFax Fax Sharing

To use the Fax Sharing feature, we recommend that you have

Good morning!

Hello!

This is a sample text file which is being sent to you as per your request via the Interpage FreeFax(sm) Service!

This service is intended to provide a preliminary evaluation as to the quality and timeliness of Interpage's subscription fax service(s).

If you review the cover sheet which was transmitted with this fax, you will note the first letter of the name you had indicated in the TO: field of the FreeFax request page. This letter serves to correlate the fax request which you had sent with this trial fax transmission result.

This file is a sample MS Word file, many other file types are supported.

If you have any questions regarding Interpage's OutFax(sm) Service including the FaxUnlimited(sm) service with no-per or per-minute charges, please feel free to contact us at:

Phone: +1 (510) 315-2750 5AM to 5:30 PM M-F Pacific Time

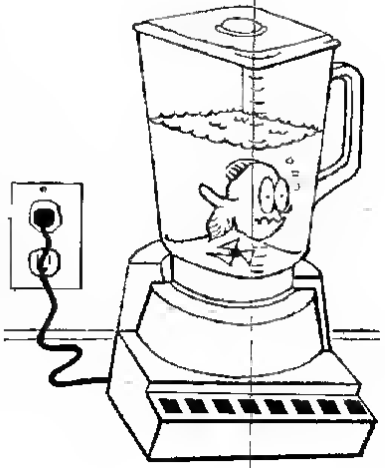
E-Mail: fnsl-support@interpage.net

Web: http://www.interpage.net

Thank you for your interest!

Notes: 1. Due to the malicious use of the FreeFax service, Interpage will no longer transmit personalized text messages; only the above fixed sample message will be transmitted. You may establish a trial account for evaluative purposes by filling out the form located at http://www.interpage.net/multi-fax-trial.html, omitting any billing information, and clearly indicating a valid e-mail address and contact telephone number. Phone us: (510) 315-2750 for additional details.

2. This fax is not a solicitation nor is it an offer. It was sent by a visitor to Interpage's web site who entered your destination number as a recipient of this test fax. A single destination may not receive more than two tests in a given week, however. If you find that someone is sending you faxes in a continuous and abusive manner please call us at (510) 315-2750 and we will block your fax number from the FreeFax service.



And you thought there was stress in your life

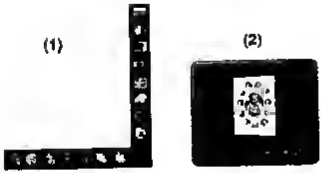
Quick Menu for smooth access to Canon's web service and to various functions for photo printing and video printing.



(1) Shortcut Menu
(2) Image Display

After this, Quick Menu opens automatically

When you click the (CREATIVE PARK PREMIUM) icon on the shortcut menu, My Image Garden opens. You can then download printables of popular characters or famous artists and print them.
*CREATIVE PARK PREMIUM is a premium content service available exclusively to customers who use genuine Canon ink for all colors. To use this service, you must have My Image Garden installed on your computer.

When My Image Garden is installed, Image Display also opens.
Image Display displays a slide show of artwork images that were created automatically by the recommended artwork functions of My Image Garden, as well as other images saved on your computer.

Cranberry Salad

Recipe courtesy Paula Deen

Prep Time:	10 min	**Level:**	**Serves:**
Inactive Prep Time:	4 hr 5 min	Easy	8 servings
Cook Time:	3 min		

4-ounce can crushed pineapple

3-ounce package black cherry gelatin

8 ounces dried cranberries, rinsed

1 cup broken pecans

1/2 cup sugar

Parsley, for garnish

Sour cream or whipped cream, for garnish

Drain pineapple and reserve juice. Add juice to 1/2 cup hot water and heat to boiling. Soften gelatin in 1/4 cup cold water. Dissolve softened gelatin in hot water-juice mixture. Let cool until it starts to set; don't let the gelatin harden. Put cranberries through a grinder. Add ground berries, pineapple, nuts, and sugar to cooled gelatin mixture. Mix well. Pour into a bowl or mold. Refrigerate until completely set. Place mold in a warm water bath and run a knife around the edges to loosen. Invert onto a serving plate; garnish with parsley and a dollop of sour cream or whipped cream.

15 Ways to Get Your Kids to Eat Better

From Parents Magazine

Every single day I deal with picky eaters both big and small. I'm the mother of 6-year-old triplets, all of whom have very different eating habits. I'm also a dietitian who teaches the professional athletes on the Chicago Bears and Chicago Bulls teams how to improve their diets. Although it's tough to convince a towering basketball player or a 300-pound linebacker that junk food is bad for him, trying to get my kids to eat well can be even more of a challenge. My daughter Kathleen has severe and life-threatening allergies to eggs, peanuts, and tree nuts, and Julie will not eat fish fruit or luckily, my son Marty will try just about anything. Mothers can similarly tell me that they feel guilty about their children's diets. They know how important it is to feed their kids healthy foods, but they're just not sure how to do it. Despite my own background in nutrition, I had to go through some trial and error with my triplets. Here are the most important lessons I've learned so I can show you how to guide your kids to eat better.

Plan ideas that will keep your family active and entertained. Start now >>

1. **Make a schedule.** Children need to eat every three to four hours: three meals (we snackers) and lots of units. If you plan for these, your children will be much more balanced and they'll be less cranky. Because he won't be famished, Pull a [illegible] on the car when I'm out with my kids and keep a stash of with carrots, pretzels, yogurt, and water so we don't have to rely on fast food.

2. **Plan dinners.** If thinking about a weekly menu is too daunting, start with two or three days at a time. A good dinner doesn't have to be fancy, but it should be balanced: whole-grain bread, rice, or pasta; a fruit or a vegetable; and a protein source like lean meat, cheese, or beans. I often make simple entree soups or Mexican chili ahead of time and then freeze it in containers. I heat it up and add whole-grain bread and a bowl of cut-up apples or melon as soon as I walk in the door.

3. **Don't become a short-order cook.** A few years ago, I fell into a bad habit. I'd make two suppers — one that I knew the kids would like and one for my husband and me. It was exhausting. Now I prepare one meal for everybody and serve it family-style so the kids can pick and choose what they want. Children often narrow their patterns between second and third grade, they'll eat most of the food I serve them.

4. **Bite your tongue.** As hard as this may be, try not to comment on what or how much your kids are eating. Be sure to eat all of it possible. Remember, you've done your job as a parent by serving balanced meals; your kids are responsible for eating them. If your picky food refuses — saying things like "Eat your vegetables" — your child will only resist.

5. **Introduce new foods slowly.** Children are neophobic by nature. I tell my kids that their taste buds sometimes have to get used to a flavor before they'll like it. A little hero worship can work wonders too. Marty refused to even try peas until I told him that Michael Jordan eats his to stay big and strong. Now Marty eats peas all the time.

6. **Dip it.** If your kids won't eat vegetables, experiment with dips. Kathleen tried her first vegetable when I served her a thinly cut carrot with some ranch salad dressing. My children also like hummus, salsa, and yogurt-based dressing.

Lasagna

(/recipes/9590-lasagna)

By Regina Schrambling Time: 4 hours Yield: 8 to 10 servings

Ingredients

FOR THE SAUCE

1 cup extra virgin olive oil

2 medium red onions, finely diced

2 large cloves minced garlic

8 ounces pancetta, diced

Preparation

Step 1

For the sauce, heat 1/2 cup oil in a large heavy Dutch oven or kettle over low heat. Add the onions, minced garlic and pancetta and cook, stirring, for 10 minutes, until the onions are wilted. Season liberally with salt and pepper. Raise heat slightly, add the wine and cook until it is mostly reduced, about 20 minutes. Crush the tomatoes into the pan, and add their juice. Add the tomato paste and 2 or [illegible] cups water. Simmer for 1 hour,

1 Introduction

This overview paper briefly explains the current situation with regard to retention of communications traffic data by certain UK organisations, examines impending moves to impose mandatory retention based on European Union (EU) Directive 2006/24/EC on the retention of data generated or processed in connection with the provision of publicly available electronic communications services or of public communications networks (http://europa.eu.int/eur-lex/lex/LexUriServ/site/en/oj/2006/l_105/l_10520060413en00540063.pdf (the Data Retention Directive)) and explores the possible implications of those moves for current and future FE and HE provision of telecommunications and network services.

The phrasing of the Data Retention Directive, and the fact that considerable discretion is left to the Member States in the implementation of any Directive, has raised concerns in certain quarters that some Member States may seek to impose data retention requirements on a wider range of organisations than has until now been the case by adopting a broad definition of publicly available electronic communications services and public communications networks.

In the UK, established forms of FE and HE communications service seem unlikely at present, to fall within the scope of any implementing legislation or administrative practices. However changes to current communications service practice including the supply of

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it just to make sure it works. How can I do that?

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here a how to do both

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll-free number in the United States) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero; this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax

Print Quality Check

Check that the dotted lines forming the four color blocks are all visible with no gaps. If OK, select (Yes) on the control panel. If gaps are visible, select (No) on the control panel to start the cleaning process and follow the prompts on the LCD.

This Brother Inkjet machine has been finely tuned to provide excellent, accurate and long lasting printed pages when using Genuine Brother Innobella(TM) ink.

The use of non Brother inks in this machine may potentially result in inferior output quality and/or machine damage.

Any required repairs for damages proven to result from using non-Brother inks in this machine may not be covered by the original machine limited warranty.

We strongly suggest you use only Genuine Brother Innobella(TM) inks when it's time for you to replace the ink cartridge(s).

Color Printer/MFP X451dn/X451dw/X551dw/X476dn/X476dw/X576dw

Fast, Powerful Next Generation Printing. The world's fastest desktop printers — up to 70 pages per minute as certified by Guinness World Records.[1] Also provides powerful savings — up to 50% less cost per page[2] than color laser printers with no tradeoffs in quality or reliability. Compatible with corporate enterprise networks.[3]

www.hp.com

Estimated savings based on comparing the cost per page of all in-color desktop printers. See Lab 1, Report on cost of ownership and reliability, available at www.hp.com/go/printerclaims.

Wireless Quick Start Guide

To connect the HP printer to a wireless network, choose one of the following methods.

Note: To connect using these methods, you must have a wireless network set up and running.

If you need further help, see the Getting Started Guide provided in-box with the printer or contact your network administrator or the person who set up your network.

Method 1: Software-assisted Setup

Note: To use this method, you must use a computer that is already connected to the wireless network.

To connect the printer, complete the following steps:

1. Make sure the printer is not connected with an Ethernet cable.
2. On the printer, touch **Network**, and then touch **Restore Network Defaults**.
3. If you have already installed the software on your computer, complete the following steps for your operating system.

   Windows

   Click **Start**, click **Programs** or **All Programs**, click **HP**, click **Printer Setup & Software**, click **Connect a New Printer**, and then follow the onscreen instructions.

   MAC OS X

   Click the **HP Utility** icon in the Dock, click the **Application** icon on the toolbar, double-click **HP Setup Assistant**, and then follow the onscreen instructions.

Note: If you have not installed the HP printer software yet, insert the HP software CD into the computer, double-click the software installer icon (if necessary), and then follow the onscreen instructions.

Method 2: Wireless Setup Wizard

Before starting the wizard, check the following: (You might need to use some of the things listed here.)

- **Wi-Fi Protected Setup (WPS) Button**

  Check whether your wireless router or wireless access point has a Wi-Fi Protected Setup (WPS) button (a button with the WPS icon or a button labeled "WPS") and that WPS is enabled.

- **Network Name (SSID)**

  Find out the name of your wireless network.

- **Wireless Password**

  If your wireless router or wireless access point does not have a WPS button and your network uses data encryption, find out the wireless password (WEP Key or WPA passphrase). If you have not changed the password since setting up the wireless network, you can sometimes find the password on the back or side of the wireless router or wireless access point.

To connect the printer, touch **Network** on the printer's control panel, touch **Wireless Setup Wizard**, and then follow the onscreen instructions.

Tip: If you need help during the setup process, touch the **?** button (the **Help** button, if available) on the printer's control panel display.

You can disable the items in the context menu either by editing the registry, which can be a pain in the posterior region, and shouldn't be done unless you know what your doing. Or by using a program like Shell Extension Manager for Windows which is by nirsoft and is freeware. If you decide to try Shell Extension Manager here's the instructions

1) Run the program as administer
2) From the Options menu and click on Filter by Extension Type and pick Context Menu
3) From the Options menu again click on Hide all Microsoft Extensions.
4) Hold down the CTRL button and click on the Third part extensions. Which will be highlighted in pink
5) Click on the Red button at the left top of the program to disable the extensions
6) Log out and re-log back in, or restart the computer to reload the registry, and test to see if that worked

If it worked then you can re-enable the extensions one at a time to find out which one is causing the problems. Just don't forget to log out, re-log back in between each one you re-enable

Step 6: Closing the Call

The final impression you leave your customer is just as important as the first impression. You want to leave them with the impression that their problem is important to you whether you actually solved it or had to assign it to another support area. Your closing will determine to what extent you are taking ownership of the problem and to what extent you are service oriented. The important aspects of a closing are included below:

- Summarize problem resolution and steps to take, if any
- Set expectations for follow-up
- Ask if the customer has any other questions
- Thank the customer for calling and use his/her name

After closing the call, you'll want to communicate completion of the open ticket to the customer. This can be easily done by sending an email to the customer that includes the points listed above. We will revisit this in more depth later when we discuss the *Problem Management* process.

PRIDE OF CLEVELAND SCOOTERS
CARE AND FEEDING OF YOUR NEW SCOOTER

• Remember to bring your scooter back to Pride of Cleveland Scooters when you have reached 600miles / 1000km for its first service . At this point, we will perform a 27-point inspection and remove the "break in" oil. This is an important step to keep your warranty valid.

• It is important to get through your first tank of gas as soon as possible. The coatings in the gas tank and carburetor need to be flushed through right away or you will get a clogged carburetor.

• If you will not be riding your scooter for a few weeks or making a lot of short trips it is important to hook up a 12volt battery maintainer/charger ($39 at POC) to the battery over night, once a week. This will prevent dead batteries.

• If you are having a problem starting your scooter make sure you are holding in the brake while pushing the start button. Also, check to see if kill switch button is in the run position and side stand up. These are the most common reasons for a bike not starting.

• For two-stroke scooter owners meke sure you are pouring good quality two stroke oil into the appropriate reservoir. Refrain from using cheap lawnmower two stroke oil as these contain a lot of ash. POC sells many good quality oils, even one that smells like strawberries ($6+ at POC).

• Winter Storage: Completely fill up the gas tank. Place a *float* charger on the battery all winter. You won't have to worry about a dead battery when you go to ride your scooter in the spring. Another option is to start your scooter (by the kick starter) twice a month and run it for 15 minutes.

•The owners manual that comes under your scooter seat has a wealth of information. If you are looking for more info we also have service manuals for every scooter we sell ($40).

• Remember to be safe and have fun while riding your scooter!

Working in Microsoft Word, I often need some "junk" text to play around with, for various reasons

* I'm designing a document and don't want to get bogged down in what the text actually says

* I'm creating a template with various paragraph styles and need to see what they will look like

* I'm creating a macro and need some text for testing purposes

* I'm trying to learn more about some feature of Microsoft Word and don't want to practice on a real document.

Microsoft Word 97, 95, 2000, and 2001 include an undocumented feature that generates all of the sample text I need. Maybe you'll find it helpful too. To use it, type the following line into a Word document and press the ENTER key

=Rand(1,1)

Word will insert the following text into your document:

The quick brown fox jumps over the lazy dog

(As you probably know, this sentence includes every letter in the alphabet and is sometimes used for typing practice.)

Need more than one sentence? You can specify how many sentences you need by changing the last number in the Rand() statement. For example, if you needed five sentences, you could type this--

=Rand(1,5)

--which would produce this

The quick brown fox jumps over the lazy dog. The quick brown fox jum

Bacon-Cheeseburger Calzones

Oh boy. All the flavors of a bacon cheeseburger are tucked into a flaky crescent pocket!

Prep Time	Total Time	Makes
30 Minutes	50 Minutes	8 sandwiches

- 4 slices bacon, cut into 1/4-inch pieces
- 1 lb lean (at least 80%) ground beef
- 1/4 cup dried instant minced onion
- 1/4 cup chopped hamburger pickle slices
- 1/4 cup ranch dressing
- 2 Roma (plum) tomato, thinly sliced, if desired
- 4 slices (3/4 oz each) American or Cheddar cheese, each cut in half
- 2 cans (8 oz) Pillsbury® refrigerated crescent dinner rolls
- 1 egg, beaten

1. Heat oven to 375°F. In 10-inch nonstick skillet, cook bacon over medium heat 2 minutes. Add ground beef and onion; cook, stirring to break beef apart, until beef is thoroughly cooked; drain if necessary. Stir in pickles and ranch dressing.
2. Unroll dough and separate each can into 4 rectangles; place on ungreased cookie sheet. Press each into 7x4-inch rectangle, firmly pressing perforations to seal.
3. Spoon about 1/3 cup ground beef mixture onto one end of each rectangle. Top each with tomato slices and 1 piece of cheese. Fold dough over filling; press edges with fork to seal (sandwiches will be full). Brush tops with egg.
4. Bake 15 to 20 minutes or until deep golden brown. Immediately remove from cookie sheet. Serve warm.

JUST A FRIENDLY REMINDER!!

The Deadline
for Reserving Your Advertising Space
Is May 15th!
That's about 2 weeks away!

Please call if you need a deadline extension... or if you haven't received or need another copy of your advertising renewal packet.

You do not want to miss this opportunity to reach your targeted customers.

Advertising in the Burmass for an entire year is a less expensive investment than one day in the newspaper, or one week on television, or one month on radio or one month in the phone book!

Your ad will be seen over and over by our readers who use it every day.

Thank you so much!
Have a wonderful day!

DELL

FOR CUSTOMERS IN THE UNITED STATES AND CANADA
(OFFER NOT AVAILABLE IN LATIN AMERICA)

Dear Dell Customer,

Thank you for choosing Dell™ printers and supplies. We would like to express our gratitude by offering to recycle your old printer and printer supplies at no cost to you. To recycle your old printer, you do not even have to leave your home or office. To recycle a used toner cartridge or a photoconductor drum, it's as easy as dropping it off at your nearest authorized shipping location.

At Dell, our focus is always on responding to customer requirements for our products and services. Stewardship of our environment is one of those requirements, and we take that responsibility seriously. From development and manufacturing to replacement and recycling, Dell manages each aspect of the product life cycle to help minimize the impact on the environment.

To recycle your old printer:

1. Pack the item you want to recycle in the box that came with your new Dell product.
2. For US customers, go to www.dell.com/recycling. For Canadian customers, go to www.dell.ca/recycling.
3. Follow the instructions on the screen.

To recycle your used toner cartridge or photoconductor drum:

1. Pack [illegible] your [illegible] box [illegible] your Dell product.

Ladies Nite Out is an annual Ladies Night Out event held at the Riding Mountain Community Hall on May 2nd as a fund raising event and we would appreciate your support. We could donate a prize for our Silent Auction Table. If you choose to give a monetary donation we would then purchase an item for the auction table showing your name as donor.

Please send monetary donations payable to Riding Mtn Community Hall to the above address and we will issue a receipt. Please call Kris Kohinski at 204-966-3307 or Lynn Nichol at 204-967-2710 if you wish to donate an item and we will arrange to have it picked up.

Also, if there are any businesses interested in attending our evening, we have these concert type tickets ($20.00 each).

We greatly appreciate the support that we receive from the local area businesses and individuals.

Regards,

Lynn Nichol / Sandy

What Mississippi Medicaid

Can Do For You!

For beneficiaries eligible for full Medicaid benefits, the following are covered services:

Services

☑ **Office Visits and Family Planning Services** -- Medicaid pays for 12 office visits *plus a physical exam* from July 1 to June 30 each year. (Children can get more visits if the doctor sends Medicaid a plan of care that says there is a medical need for the child to have more visits.)

☑ **Hospital Care - Inpatient Services** -- Adults get 8 days of inpatient hospital services from July 1 to June 30 each year. Children can get more visits with a plan of care.

☑ **Hospital Care - Outpatient Services** -- The beneficiary gets emergency room visits from July 1 to June 30 each year. Children can get more visits with a plan of care.

☑ **Prescription Drugs** -- You may get five (5) prescriptions per month. No more than two (2) of the five (5) prescriptions may be name brands, including refills. Children under 21 years of age may get no more than five (5) prescriptions if the doctor sends Med card a plan of care.

☑ **Eyeglasses** -- Adults can get one (1) pair of eyeglasses every two (2) years. Children may get up to two (2) pairs of eyeglasses per year. If a child needs more than two (2) pairs of eyeglasses in a year, the doctor has to send Medicaid a plan of care which says there is a medical need for the child to have another pair of eyeglasses.

☑ **Home Health Services** -- Adults get 25 home health visits from July 1 to June 30 each year. Children can get more visits with a plan of care.

☑ **Long Term Care Services** -- Medicaid pays for nursing facility, intermediate care facility services for the mentally retarded, and psychiatric residential treatment facility care (under age 21).

☑ **Inpatient Psychiatric Care** -- This service is only available for persons under age 21 in a free-standing psych atric hospital.

☑ **Non-Emergency Transportation Services** -- Medicaid will help eligible persons to travel to and from medical appointments when they have no other way to get there.
Call 1-888-224-6064 to find out how to get help with transportation to your appointment.

☑ **You are encouraged to get a yearly health screening from your doctor or clinic.**

☒ **This physical examination *will not* be used to determine your eligibility for the Medicaid program.**

☑ **This physical exam *will not* use one of your office visits!**

☑ **You do not have to pay a co-pay for your annual physical exam.**

COVERED SERVICES ALSO INCLUDE

☑ **Chiropractic Services**

☑ **Dialysis Services**

☑ **Emergency Ambulance Services**

☑ **Mental Health Services**

☑ **Dental Extractions and Related Treatment**

☑ **Durable Medical Equipment and Medical Supplies**

☑ **Hospice Services**

☑ **Physician Services, Physician Assistant Services, Nurse Practitioner Services**

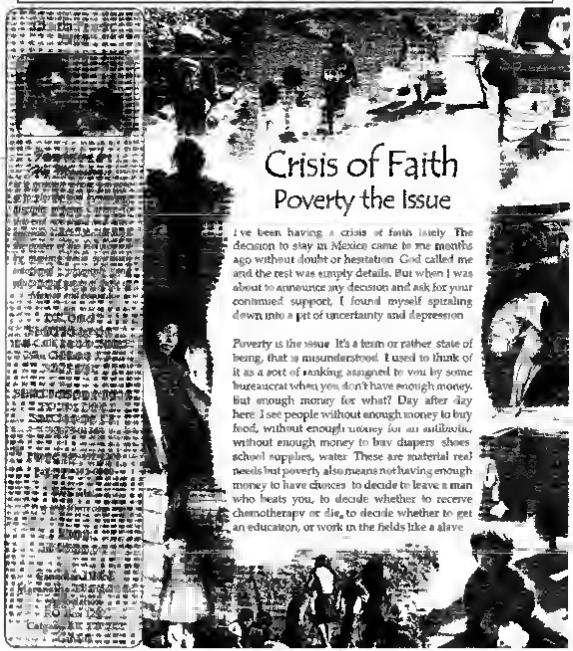
FOUNDATION FOR HIS MINISTRY October 2008



Crisis of Faith
Poverty the Issue

I've been having a crisis of faith lately. The decision to stay in Mexico came to me months ago without doubt or hesitation. God called me and the rest was simply details. But when I was about to announce my decision and ask for your continued support, I found myself spiraling down into a pit of uncertainty and depression.

Poverty is the issue. It's a term or rather state of being, that is misunderstood. I used to think of it as a sort of ranking assigned to you by some bureaucrat when you don't have enough money. But enough money for what? Day after day here I see people without enough money to buy food, without enough money for an antibiotic, without enough money to buy diapers, shoes, school supplies, water. These are material real needs but poverty also means not having enough money to have choices: to decide to leave a man who beats you, to decide whether to receive chemotherapy or die, to decide whether to get an education, or work in the fields like a slave.

Thank you for your interest!

other 1. Just as the restrictions on the address service, Interpage also no longer can verify personalized text messages, only the default fixed sample message will be transmitted. You may either be in the address for personalized messages by filling out the enclosed form on page 3, and reply indicating a valid e-mail address and receive telephone number. Please call (510) 210-7750 for additional details.

2. The fax is more productive, not less as often, it saves us to go to other people with the who entered your destination online, as a product of this and has. A single destination may the online, more than two tests in a given email. Example: If you find convenience in sending you fixed to a destination and whether manner, please fax email (510) 210-3700 and we will issue your fax number from the FreeFax online.

Online Interpage® Fixed-service E-mails

Does your voicemail doll you?

Interpage Web Mail will start you personalized email online access, a message, and a little bit like the telephone message. In your phone or e-mail, you can see the Web Mail telephone message, or some telephone numbers.

Multiply the value of your old paper!

Let's make a paperless meeting. Another message on your cellphone or email as well? Want to have the same functionality to answer to your e-mail and faxing to your cellphone? Where you fax to cellphone and your incoming paper and faxes to multiple cellphones, pagers, and email accounts by the single Interpage service!

Know for sure that urgent alerts are received!

Confirmation to confirmed With the telephone dialed/received actually "call the talking and cellphones, and can prompt it to respond to confirm receipt of alerts and emergency delivery manual.

The Golf Caddy

A golfer had a terrible day and took it out on his caddy.

"You're terrible! When we get back to the clubhouse, I'm going to make sure you get fired!"

"That's okay with me," the caddy calmly replied. "By the time we get back to the clubhouse, I'll be old enough for a regular job."

Hello World!

You have a very LOW rating on medical related websites!?! This is usually because competitors will do everything they can to ruin your online reputation and drive away any potential clients who search for your name online

We can improve your online reputation by posting positive reviews on major review sites and increase your general rating on sites like healthgrades.com vitals.com or doctorscorecard.com

Having positive reviews on major review sites will drive more patients to choose you as their doctor and will make your name stand up from all of the other competitors

Our services include
- Improving your reputation by posting good reviews,
- Suppressing negative reviews or other links that might damage your reputation, with positive ones which you can control
- Increasing your online popularity by creating websites and offering SEO (Search Engine Optimization) services.

Find out more about how we can improve your image on the internet and drive more patients to you by visiting our website at http://postingonlygoodreviews.com/

You can contact us at makereviews@gmail.com or call us at 512-547-1170

Thank you for according us your time and understanding

« How to Stop a Calls from a Fax Machine?
How to Fix Vertical Stripe On Faxes I Send »

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it, just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1 855-330-1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero. This site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

BRAF Mutations NOT DETECTED

Plasma Volume Used: 4 ml

Method: Target Selector™ by Biocept

Positive and negative controls were run and reacted in an appropriate manner.
The BRAF Mutation assay is a quantitative Real-Time PCR based mutant enrichment assay with Mutation blocking of BRAF wild-type amplification. The amplification products are purified and subject to sequencing to confirm the presence of the BRAF mutation. The assay has a sensitivity of 0.08% mutant population.

Print Quality Check

Check that the dotted lines forming the four color blocks are all visible with no gaps. If OK, select (Yes) on the control panel. If gaps are visible select (No) on the control panel to start the cleaning process and follow the prompts on the LCD.

This Brother Inkjet machine has been finely tuned to provide excellent, accurate and long lasting printed pages when using Genuine Brother Innobella(TM) inks.

The use of non Brother inks in this machine may potentially result in inferior output quality and/or machine damage.

Any required repairs for damages proven to result from using non-Brother inks in this machine may not be covered by the original machine limited warranty.

We strongly suggest you use only Genuine Brother Innobella(TM) inks when it is time for you to replace the ink cartridge(s).

How Can I Test My Fax Machine?

I just hooked up a new fax machine...and I'd like to test it, just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1-888-877-1655 (a toll free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero: this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

Get A Hot Mamma

Morris, 82, went to the doctor to get a physical.

A few days later, the doctor saw Morris walking down the street with a gorgeous young woman on his arm.

A couple of days later, the doctor spoke to Morris and said, "You're really doing great, aren't you?"

"Just doing what you said, Doc," replied Morris. "Get a hot mamma and be cheerful."

"I didn't say that," said the doctor. "I said, 'You've got a heart murmur; be careful'."

■ **Industry Canada Compliance Statement (For Canada)**

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of this device.

L'utilisation de ce dispositif est autorisée seulement aux conditions suivantes:

(1) il ne cause pas de brouillage et (2) l'utilisateur du dispositif doit être prêt à accepter tout brouillage radioélectrique reçu, même si ce brouillage est susceptible de compromettre le fonctionnement du dispositif.

■ **Equipment Attachment Limitations (Canada only)**
(MFC only)

NOTE1 This label indicates that the equipment meets the applicable industry Canada technical specifications.

Le présent matériel est conforme aux spécifications techniques applicables d'Industrie Canada.

NOTE2 The Ringer Equivalence Number is an indication of the maximum number of devices allowed to be connected to a telephone interface. The termination on an interface may consist of any combination of devices subject only to the requirement that the sum of the RENs of all the devices does not exceed five.

L'indice d'équivalence de la sonnerie (IES) sert à indiquer le nombre maximal de terminaux qui peuvent être connectés à une interface téléphonique. La terminaison d'une interface peut consister en une combinaison quelconque de dispositifs, à la seule condition que la somme d'indices d'équivalence de la sonnerie de tous les dispositifs n'excède pas 5.

■ **Laser Safety (110 to 120 volt model only)**

This machine is certified as a Class 1 laser product under the U.S. Department of Health and Human Services (DHHS) Radiation Performance Standard according to the Radiation Control for Health and Safety Act of 1968. This means that the machine does not produce hazardous laser radiation.

Since radiation emitted inside the machine is completely confined within protective housings and external covers, the laser beam cannot escape from the machine during any phase of user operation.
